affect civic life Turow shows that these marketing techniques are not wholly new they have roots in direct marketing and product placement widely used decades ago and recently revived and reimagined by advertisers as part of customer relationship management known popularly as CRM He traces the transformation of marketing techniques online on television and in retail stores And he describes public reaction against database marketing pop up blockers spam filters commercial skipping video recorders and other ad evasion methods Polls show that the public is nervous about giving up personal data Meanwhile companies try to persuade the most desirable customers to trust them with their information in return for benefits Niche Envy tracks the marketing logic that got us to this uneasy impasse **Global Sources Electronics** ,2007
