

## Structure of the Heart

### Circulatory System Worksheet.

*C3 describe the inter-relationships of the structures the heart*

*C4 analyse the relationship between heart rate and blood pressure*

*C5 analyse the functional inter-relationships of the vessels of the circulatory system*

*C6 describe the components of blood*

1. Identify and give functions (including where blood is coming from and going to, as applicable) for each of the following:

| Letter on diagram | Structure                          | Function |
|-------------------|------------------------------------|----------|
|                   | – left and right atria             |          |
|                   | – left and right ventricles        |          |
|                   | – coronary arteries and veins      |          |
|                   | – anterior and posterior vena cava |          |
|                   | – aorta                            |          |
|                   | – pulmonary arteries and veins     |          |
|                   | septum                             |          |
|                   | semi-lunar valves                  |          |
|                   | chordae tendineae                  |          |
|                   | atrioventricular valves            |          |
|                   | pulmonary trunk                    |          |
