Unit 1

The Enlightenment Period

- The Enlightenment period yielded many ideas that influenced the making of the American government.
- Some of the famous philosophers of the Enlightenment periods:
 - John Locke, John-Jacques Rousseau, and Thomas Hobbes.
- Some of the most important ideas yielded from this period:
 - **Social Contract** - A contract between the government and the governed. With this contract, the governed understands that they must give up some of their natural rights in exchange for protection from the government, alongside other benefits.
 - **Natural Rights** - The rights given to every person. These rights can not be taken away by the government. If these rights are violated, then the people have the right to revolt.
 - **Popular Sovereignty** - The idea that the people should have the main voice in the government, and the government should be held accountable to the people. The power is in the people.
 - **Republicanism** - A representative form of government that is limited.

Models of Democracy

As you know, America is a **democracy**. However, there are different models of representative democracy that exist, and an aspect of each form of democracy is evident in our government.

These different models of democracy include:

- **Participatory Democracy** - Citizens have the power to decide on a policy, but the politicians that are elected by the people implement the people's decisions.
- **Pluralist Democracy** - Nobody dominates policymaking, but instead, different groups of people compete for influence in the government.
- **Elite Democracy** - A small group of people makes decisions for everybody; these people are usually wealthy and well-educated.
