Lagopoulos, Karin Boklund-Lagopoulou, 2020-11-23 The book is an in depth presentation of the European branch of semiotic theory originating in the work of Ferdinand de Saussure It has four parts a historical introduction the analysis of language narrative theory and communication theory Part I briefly presents all the semiotic schools and their main points of reference Although this material is accessible in many other Anglophone publications the presentation is marked by specific choices aiming to display similarities and differences The analysis of language in Part II is also available in Anglophone bibliography but the book presents Saussurean theory according to a new theoretical rationale and enriched with later developments In addition it is orientated so as to offer the foundation for the part that follows Part III is a presentation of Greimasian narrative theory well documented in Francophone bibliography but poorly represented in Anglophone publications The presentation extends the theory in both a qualitative and a new quantitative direction and includes a great

number of examples and two extended textual analyses to help the reader understand and apply it Part IV communication theory combines an extension of Greimasian sociosemiotics with other schools of thought This original theoretical section discusses fourteen consecutive communication models the synthesis of which results in a holistic social semiotic theory of communication

American Poetry after Modernism Albert Gelpi, 2015-03-09 Albert Gelpi's *American Poetry after Modernism* is a study of sixteen major American poets of the postwar period from Robert Lowell to Adrienne Rich Gelpi argues that a distinctly American poetic tradition was solidified in the later half of the twentieth century thus severing it from British conventions In Gelpi's view what distinguishes the American poetic tradition from the British is that at the heart of the American endeavor is a primary questioning of function and medium The chief paradox in American poetry is the lack of a tradition that requires answering and redefining redefining what it means to be a poet and likewise how the words of a poem create meaning offer insight into reality and answer the ultimate questions of living Through chapters devoted to specific poets Gelpi explores this paradox by providing an original and insightful reading of late twentieth century American poetry

Those Bloomin' Books Carol Sue Kruise, 1987

Selected Poems of Vladimir Nabokov Vladimir Nabokov, 2012-05-29 Though we know Vladimir Nabokov as a brilliant novelist his first love was poetry This landmark collection brings together the best of his verse including many pieces that have never before appeared in English These poems span the whole of Nabokov's career from the newly discovered *Music* written in 1914 to the short playful *To V ra* composed in 1974 Many are newly translated by Dmitri Nabokov including *The University Poem* a sparkling novel in verse modeled on Pushkin's *Eugene Onegin* that constitutes a significant new addition to Nabokov's oeuvre Included too are such poems as *Lilith* an early work which broaches the taboo theme revisited nearly forty years later in *Lolita* and *An Evening of Russian Poetry* a masterpiece in which Nabokov movingly mourns his lost language in the guise of a versified lecture on Russian delivered to college girls The subjects range from the Russian Revolution to the American refrigerator taking in on the way motel rooms butterflies ice skating love desire exile loneliness language and poetry itself and the poet whirls swiftly between the brilliantly painted facets of his genius wearing masks that are by turns tender demonic sincere self parodizing shamanic visionary and ingeniously domestic

Heart in Conflict Michael Grimwood, 2009-01-01 *Heart in Conflict* is a study of two periods of intense vocational crisis in William Faulkner's career as a writer his time of apprenticeship before the composition of *The Sound and the Fury* and the beginnings in the late 1930s and early 1940s of the long season of decline that followed the completion of *Absalom Absalom* These periods of crisis Michael Grimwood argues grew out of an ongoing tension between the divided components of Faulkner's personality between two versions of himself the illiterate bumpkin and the sophisticated aesthete It was a collaboration between these two postures that formed Faulkner's vocation that created the impulse to translate the rural unlettered world of Oxford

Mississippi into a literature of the highest ambitions But Faulkner was neither bumpkin nor aesthete His awareness of the fraudulence of both his self images and ultimately his art caused him to create beginning with *The Wild Palms* in 1939 novels divided against themselves both structurally and thematically novels whose complexities emanate from their author s own complex personality Grimwood traces the formation of Faulkner s divided personality in his childhood and youth in the conflicting influences of literature and landscape in the conflicting urges wrought by a mother who called him to the rigors of the schoolhouse and a father whose interests led to the diffuse pleasure of the world outside The conflict gained dimension when Faulkner s earliest poems written in the style of the European pastoral were mocked by students in the pages of the University of Mississippi literary magazine Faulkner internalized this mockery and it would emerge in the late 1930s and early 1940s as a destructively self critical compulsion to write novels *The Wild Palms* *The Hamlet* *Knight s Gambit* and *Go Down Moses* that were simultaneously pastoral and mock pastoral that reflected both an impulse to bequeath his own substance through words and a virtual surrender to illiteracy In many ways the tensions that divided Faulkner tensions between pastoral ideal and rural reality between flights of language and attachment to the wordless soil also divided the whole of southern literature and society from the time of its origins Such conflicts can be found in the writings of Thomas Jefferson philosopher of democracy and slaveowner in the southwestern humor and plantation fiction that dominated southern letters in the 1830s and in the works of the agrarian writers of the 1930s whose European poesy belies their dirt road political beliefs Showing how the tensions in the narratives mirrored tensions in the author and in his society *Heart in Conflict* reveals William Faulkner as he struggled with his inheritance both as a southerner and as a southern writer

knowledge of poets copywriters brand namers political speechwriters and other professional verbal miniaturists Each chapter discusses one tool that helps short messages grab attention communicate instantly stick in the mind and roll off the tongue Piled high with examples from corporate slogans to movie titles to product names Microstyle shows readers how to say the most with the least while offering a lively romp through the historic transformation of mass media into the media of the personal Painting and Poetry Franklin R. Rogers, Mary Ann Rogers, 1985 This study addresses itself to the formal in the topological sense aspect of literature and literary words and concludes that if logos discursive language and mythos literary language are indeed contiguous complementary forms they are then essentially no different from those forms with which the painter or sculptor deals in the formation of his art object **Critical and Cultural Theory** Dani

Cavallaro, 2001-01-01 This radical new book brings together the key concepts issues and debates in critical and cultural theory today Each chapter presents a self contained analysis of each concept as well providing a range of discussion questions and further reading Throughout text links connect related material across chapters enabling the reader to pursue their own line of disciplinary or cross disciplinary inquiry **Crow Flight** Susan Cunningham, 2018-12-11 The curious flight patterns of crows lead a teen computer programmer down a path of mystery and romance Gin trusts logic a little too much She even designs programs to decide what to eat and how to spend her time All that changes when she is paired with a new transfer student Felix on a computer modeling assignment to explain certain anomalies in the behavior of crows Speaking of anomalies why is Gin so disappointed that Felix isn't a match for her in the dating app she is designing with local gamers As she enters Felix's world and digs further into the data behind crow behavior Gin uncovers a terrible secret And the wrong decision could equal disaster squared **Soka Gakkai's Human Revolution** Levi McLaughlin, 2018-12-31 Soka Gakkai is Japan's largest and most influential new religious organization It claims more than 8 million Japanese households and close to 2 million members in 192 countries and territories The religion is best known for its affiliated political party Komeito the Clean Government Party which comprises part of the ruling coalition in Japan's National Diet and it exerts considerable influence in education media finance and other key areas Levi McLaughlin's comprehensive account of Soka Gakkai draws on nearly two decades of archival research and non member fieldwork to account for its institutional development beyond Buddhism and suggest how we should understand the activities and dispositions of its adherents McLaughlin explores the group's Nichiren Buddhist origins and turns to insights from religion political science anthropology and cultural studies to characterize Soka Gakkai as mimetic of the nation state Ethnographic vignettes combine with historical evidence to demonstrate ways Soka Gakkai's twin Buddhist and modern humanist legacies inform the organization's mimesis of the modern Japan in which the group took shape To make this argument McLaughlin analyzes Gakkai sources heretofore untreated in English language scholarship provides a close reading of the serial novel The Human Revolution which serves the Gakkai as both history and de facto scripture identifies ways episodes from members lives form new chapters in its

growing canon and contributes to discussions of religion and gender as he chronicles the lives of members who simultaneously reaffirm generational transmission of Gakkai devotion as they pose challenges for the organization's future. Readers looking for analyses of the nation state and strategies for understanding New Religions and modern Buddhism will find Soka Gakkai's Human Revolution to be an especially thought provoking study that offers widely applicable theoretical models.

Handbook of Poetic Forms Jessica Bundschuh, Irmtraud Huber, 2025-10-06 This Handbook of Poetic Forms aims to offer historically informed approaches to a wide variety of poetic forms. A particular emphasis will be on considering poetic form in dialogue with the cultural context in which it is being used as well as within the literary tradition of each form and to explore the stable as well as the historically variable affordances of each form in such contexts. Hereby the focus lies on prescriptive forms that is on poetic forms which are defined by or at least associated with specific metrical stanzaic or overall structures or the absence of such rather than poetic genres that are primarily characterised by similarities in subject matter like the elegy or the ode. While this Handbook should be accessible to students its aim is not to offer basic introductions but rather to broaden a historical and functional understanding of the poetic forms it covers and to engage with poetic forms not as givens but as historically contingent processes of formation. Above all this Handbook's formalism is new formalist in emphasising historical awareness and contextualisation.

Biblical Sound and Sense Thomas p. McCreesh, 1991-12-01 The first chapter of this unusual and instructive work shows how the study of sound patterns in Old Testament Hebrew poetry is integral to the investigation of biblical poetry. Then several chapters describe and systematize the sound patterns beginning with simpler examples of assonance and alliteration. The analysis gradually moves on to more complex configurations which link words and phrases emphasize key words mark off syntactical and semantic units and highlight word repetition and word play. A relationship between sound pattern and meaning in each proverb is shown throughout.
