

The Alcatel-Lucent 1353 Litespan Management System (LMS)

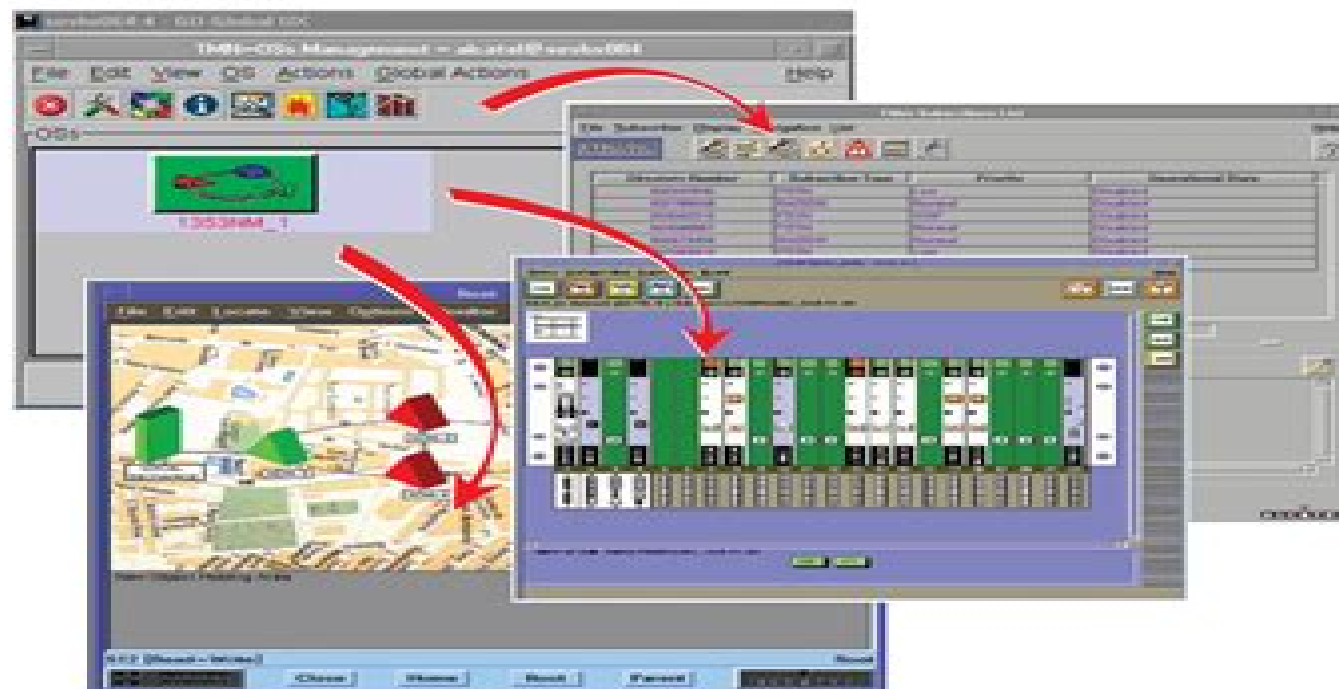

Today's competitive environment With the Alcatel-Lucent 1353 LMS, you can take advantage of a user-friendly and familiar graphical user interface (GUI) to present information related to operations, service configuration, performance, alarms and security (see Figure 2).

Like the management system for the Alcatel-Lucent Optinex family and the Alcatel-Lucent Intelligent Services Access Manager (ISAM) family, the Alcatel-Lucent 1353 LMS is based on the Alcatel-Lucent Management Platform (ALMAP). This compatibility lets you easily integrate the Alcatel-Lucent 1353 LMS with other Alcatel-Lucent management systems. That's important,

because integrated network management optimizes your capital investment, reusing existing hardware to minimize equipment costs, while lowering operation and maintenance activities and training costs.

Furthermore, in networks with Alcatel-Lucent switching or transport equipment, management applications can be easily integrated. For example, alarms for all network elements appear in a single window for ease of monitoring and use. With the goal, moreover, of providing you with a complete solution, both the Alcatel-Lucent 1353 LMS and Alcatel-Lucent 1540 Litespan are integrated and tested with other Alcatel-Lucent products.
