E-Commerce and Intelligent Methods Javier Segovia, Piotr S. Szczepaniak, Marian Niedzwiedzinski, 2013-06-05 This book covers significant recent developments in the field of Intelligent Methods applied to eCommerce The Intelligent Methods considered are mainly Soft Computing Methods that include fuzzy sets rough sets neural networks evolutionary computations probabilistic and evidential reasoning multivalued logic and related fields There is no doubt about the relevance of eCommerce in our daily environments and in the work carried out at many research centers throughout the world The application of AI to Commerce is growing as fast as the computers and networks are being integrated in all business and commerce aspects We felt that it was time to sit down and see how was the impact into that field of low level AI i.e. soft computing We found many scattered contributions disseminated in conferences workshops journal books or even technical reports but nothing like a common framework that could serve as a basis for further research comparison or even prototyping for a direct transfer to the industry We felt then the need to set up a reference point a book like this We planned this book as a recompilation of the newest developments of researchers who already made some contribution into the field The authors were selected based on the originality and quality of their work and its relevance to the field Authors came from prestigious universities and research centers with different backgrounds *Follow Your Heart; Find Your Soul* Marian Dimson, 2018-10-22 In search of a bright future as an interior decorator Mary moves to Toronto and finds work as a live in housekeeper for the affluent Hamilton family but all is not well in Mary's new home Katherine Hamilton a psychiatrist leans on her education to help heal following the death of her daughter Desperate to put herself back together Katherine seeks affections outside her marriage Alex is a young man destined to run the family business For generations his kin have practiced law but Alex wants to be an artist When he decides to pursue his dream he expects his father to be disappointed instead he shows Alex his mother's art hidden in the attic and Alex is reintroduced to the beloved woman he lost Mary and Alex's paths cross and they find love and comfort in one another Still life has a way of interrupting the peace Katherine's affair is discovered and she must find a way to put both herself and her marriage back together Mary witnesses this as an observer as she faces her own challenges in loving Alex A moment in a cemetery gives Mary a glimpse into her past life which changes everything as past becomes future and the separate lives of once broken strangers meld into destiny *Mycology in the Tropics* Jonathan Jaime G. Guerrero, Teresita U. Dalisay, Marian P. De Leon, Mark Angelo O. Balendres, Kin Israel R. Notarte, Thomas Edison E. Dela Cruz, 2022-10-16 Mycology in the Tropics Updates on Philippine Fungi comprehensively discusses the current state of Philippine mycology including historical developments in the field listings of fungi with diverse utilizations or applications and those that cause economic impact on crop production in the country Specifically the chapters in the book introduce tropical mycology describe different fungal groups their biodiversity

and conservation and give insights into the applications of mycology in agriculture health industry and the environment The book also includes quarantine regulations on economically important diseases and describes the importance of developing local studies on fungi Provides a leading reference that encapsulates the many facets of mycology in the Philippines Gives up to date developments on Philippine mycology especially topics rarely discussed such as the roles of mycological herbaria and culture collections traditional knowledge on mushrooms and on quarantine guidelines of crops with fungal diseases Presents an introduction to fungal species reported in aquatic and terrestrial habitats Highlights local studies on fungi in relation to diseases in human animals and plants and summarizes key findings on their use in the industry and the environment

NLM Newslines, 2000 We Were Brothers Barry Moser, 2015-10-20 Brothers Barry and Tommy Moser were born of the same parents in Chattanooga Tennessee slept in the same bedroom went to the same school and were both poisoned by their family's deep racism and anti-Semitism But as they grew older their perspectives and their paths grew further and further apart Barry left Chattanooga for New England and a life in the arts Tommy stayed put and became a mortgage banker From attitudes about race to food politics and money the brothers began to think so differently that they could no longer find common ground For nearly forty years there was more strife between them than affection After one particularly fractious conversation when Barry was in his late fifties and Tommy was in his early sixties their fragile relationship fell apart With the raw emotions that so often surface when we talk of our siblings Barry recalls how they were finally able to traverse that great divide and reconcile their troubled brotherhood before it was too late We Were Brothers written and illustrated by preeminent artist Barry Moser is a powerful story of reunion told with candor and regret that captures the essence of sibling relationships with all their complexities contradictions and mixed blessings Computational Science - ICCS 2008 Marian Bubak, Geert Dick van Albada, Jack Dongarra, Peter M.A. Sloot, 2008-06-25 The three volume set LNCS 5101 5102 5103 constitutes the refereed proceedings of the 8th International Conference on Computational Science ICCS 2008 held in Krakow Poland in June 2008 The 167 revised papers of the main conference track presented together with the abstracts of 7 keynote talks and the 100 revised papers from 14 workshops were carefully reviewed and selected for inclusion in the three volumes The main conference track was divided into approximately 20 parallel sessions addressing topics such as e science applications and systems scheduling and load balancing software services and tools new hardware and its applications computer networks simulation of complex systems image processing and visualization optimization techniques numerical linear algebra and numerical algorithms The second volume contains workshop papers related to various computational research areas e.g. computer graphics and geometric modeling simulation of multiphysics multiscale systems computational chemistry and its applications computational finance and business intelligence physical biological and social networks geocomputation and teaching computational science The third volume is mostly related to computer science topics such as bioinformatics challenges to computer science tools for program development and analysis in computational science software engineering

The Secret World of Oil Ken Silverstein, 2015-05-05 The oil industry provides the lifeblood of modern civilization and bestselling books have been written about the industry and even individual companies in it like ExxonMobil But the modern oil industry is an amazingly shady meeting ground of fixers gangsters dictators competing governments and multinational corporations and until now no book has set out to tell the story of this largely hidden world The global fleet of some 11 000 tankers that s tripled during the past decade moves approximately 2 billion metric tons of oil annually And every stage of the route from discovery to consumption is tainted by corruption and violence even if little of that is visible to the public Based on trips to New York Washington Houston London Paris Geneva Phnom Penh Dakar Lagos Baku and Moscow among other far flung locals The Secret World of Oil includes up close portraits of a shadowy Baku based trader a high flying London fixer and an oil dictator s playboy son who has to choose one of his eleven luxury vehicles when he heads out to party in Los Angeles Supported by funding from the prestigious Open Society this is both an entertaining global travelogue and a major work of investigative reporting
