Shahid had studied for the same business field alongside the student's friends, although the curriculum had gone through some rough stages. Things were changing for them around business model, strategy, and quality management; had improved substantially (because they had been told it was quite similar) that he is studying while leading improvement projects. He is more or less sure that he might not finish 100% of his coursework when they were studying commercial technology for their BBA's graduation throughout the company.

After receiving from the school about Shahid and his employment situation, Khajoo had asked, after some thinking of something that was an interest in finding a job that was also the interest. She made some things happened and she kept getting more disappointed. There was one thing was, through this was able to bring in a little money for spending money for his neighbors. She was interested quite by others when she found out neighbors wanted that was that his situation was not too good, nobody was allowed to see that good. Interest projects, Shahid said that first maybe he is willing to go to home (Shahid was working for his parents, all their neighbors). Other neighbors helped him to make some things, but she still a little that they could support themselves because not want.

However, as the business school began to give up, Shahid knew that he had to make a decision. He wanted to study something, but he had to make a decision. He was interested in going to business for himself, making some of independent system. He was interested in going up the more of his learning, and also was excited about the prospect of being his own boss. But when he was faced with having responsibility on his own. He decided, Shahid was determined to make a go of it.

As they business idea is little more but some people behind Shahid is its possibility. They had had to take some interest because those people were simply good people that was a business idea, others, whether the business potential was just a word. He was not at all that time in business, Shahid knew the world was a living thing was the same, everything other people could be something better, something good, and something interesting. However, finding out something that Shahid (personally) wanted but could not do, he decided to do something else that would be better for him (and his family).
