HCPCS

VS

CPT

Definition

It is a Healthcare Common Procedural Coding System specially developed by the Centre for Medicare and Medicaid organizations.

It is Current Procedural Terminology. Which are developed by the American Medical Association to provide direction to the medical professional.

Significance

These codes provide a standardized description for delivering healthcare services.

These codes provide a standardized description, which has to be acknowledged by the medical workers.

Ownership

These codes were developed under the Healthcare and Information Probability and Protection Act of 19976, so these are free.

These codes are registered trademarks of the American Medical Association, so one who wants access has to pay for the procedure.

Protection

Everyone can get free access to the HCPCS procedures.

Outsiders have to pay for getting the services of CPT procedures.

Divisions

These codes are divided into Level-I, Level II, and Level III.

These are divided into three categories, Category 1, Category 2, and Category 3.

Affect

These codes affect both direct healthcare workers and non-direct healthcare workers.

These codes only provide procedures for the operation of patients.
