Appel,2003-04-30 Historians of the postwar transformation of science have focused largely on the physical sciences especially the relation of science to the military funding agencies In Shaping Biology Toby A Appel brings attention to the National Science Foundation and federal patronage of the biological sciences Scientists by training NSF biologists hoped in the 1950s that the new agency would become the federal government s chief patron for basic research in biology the only agency to fund the entire range of biology from molecules to natural history museums for its own sake Appel traces how this vision emerged and developed over the next two and a half decades from the activities of NSF s Division of Biological and Medical Sciences founded in 1952 through the cold war expansion of the 1950s and 1960s and the constraints of the Vietnam War era to its reorganization out of existence in 1975 This history of NSF highlights fundamental tensions in science policy that remain relevant today the pull between basic and applied science funding individuals versus funding departments or institutions elitism versus distributive policies of funding issues of red tape and accountability In this NSF funded study Appel explores how the agency developed how it worked and what difference it made in shaping modern biology in the United States Based on formerly untapped archival sources as well as on interviews of participants and building upon prior historical literature Shaping Biology covers new ground and raises significant issues for further research on postwar biology and on federal funding of science in general National Library of Medicine Current Catalog National Library of Medicine (U.S.),1986 **Current Catalog** National Library of Medicine (U.S.),1979 First multi year cumulation covers six years 1965 70 **Marine Fisheries Review** ,1988 **Can't Beat the Chemistry** Kat Colmer,2019-04-20 Ionic and covalent bonds are a piece of cake for MJ But human bonds are a little harder There are only two things MJ wants in her final year of high school 1 Glowing grades and 2 to convince uber smart chiselled jaw Jason they d be a winning team outside the science lab as well as in Tutoring deadbeat drummer Luke isn t part of the plan After all he has average intelligence takes disorganised notes and looks like a partied out zombie at their study sessions Not even his taut biceps will win MJ over But MJ learns that she could be tutored in a few life lessons too That sometimes there s good reason to skip chemistry tutorials That intelligence is so much more than a grade average And that sometimes you can t beat the chemistry Monthly Catalog of United States Government Publications ,1985 **NOAA Technical Memorandum NMFS-SEFC** ,1991 Fishery Bulletin ,1996 **Financial Assistance by Geographic Area** , Monthly Catalogue, United States Public Documents ,1986 **Infants and Children** Laura E.
