Cox, 2020-09-16 Traditional roles of higher education are giving way to academic partnership research and open resources Libraries play a key role to serve as a gateway to information and to promote intellectual discovery among students This book explores the relevant issues and strategies library science partnerships initiate with stakeholders in the field *Humanizing Higher Education through Innovative Approaches for Teaching and Learning* Enakshi Sengupta, Patrick Blessinger, Mandla Makhanya, 2021-01-18 Innovative pedagogy is the only solution that can bridge both scarcity and quality in education This edited collection showcases how innovative approaches to teaching and learning have become the need of the hour in higher education How might new technologies and a fresh take on curriculum design create a sufficient impact on learners **Metric Handbook** Pamela Buxton, 2015-03-05 Significantly updated in reference to the latest construction standards and evolving building types Many chapters revised including housing transport offices libraries and hotels New chapter on flood aware design Sustainable design integrated into chapters throughout Over 100 000 copies sold to successive generations of architects and designers this book belongs in every design studio and architecture school library The Metric Handbook is the major handbook of planning and design information for architects and architecture students Covering basic design data for all the major building types it is the ideal starting point for any project For each building type the book gives the basic design requirements and all the principal dimensional data and succinct guidance on how to use the information and what regulations the designer needs to be aware of As well as

building types the Metric Handbook deals with broader aspects of design such as materials acoustics and lighting and general design data on human dimensions and space requirements The Metric Handbook provides an invaluable resource for solving everyday design and planning problems Exploring Informal Learning Space in the University Graham

Walton,Graham Matthews,2017-09-01 Growing student numbers increased student expectations new approaches to learning and fast paced technological advances all contribute to the need for universities to take a more strategic approach to their buildings including formal and informal learning spaces Exploring Informal Learning Space in the University addresses the issue of informal learning space from the perspectives of a comprehensive range of stakeholders including students academics facilities managers university managers IT managers architects interior designers and librarians With contributions from a range of experts practitioners and academics around the world this book uses a combination of case studies and theoretical discussion to explore the rationale and theory of informal learning space alongside the practicalities of its planning development and utilization The volume is at once ambitious and pragmatic combining innovative thinking with a firm awareness of practicalities including the varied constraints faced by universities and the need to work in tandem with broader strategies Advocating broad collaboration at both planning and delivery stage the result is essential reading for anyone involved in the delivery of learning space provision from architects and designers to university managers and strategists It will also be of particular interest to academics researchers and postgraduate students engaged in the study of library information science or higher education policy and strategy **The Routledge International Handbook of**

Student-Centered Learning and Teaching in Higher Education Sabine Hoidn,Manja Klemenčič,2020-07-28 The movement away from teacher centered toward student centered learning and teaching SCLT in higher education has intensified in recent decades Yet in spite of its widespread use in literature and policy documents SCLT remains somewhat poorly defined under researched and often misinterpreted Against this backdrop The Routledge International Handbook of Student Centered Learning and Teaching in Higher Education offers an original comprehensive and up to date overview of the fundamentals of SCLT and its discussion and applications in policy and practice Bringing together 71 scholars from around the world the volume offers a most comprehensive and up to date overview of the fundamentals of SCLT and its applications in policy and practice provides beacons of good practice that display how instructional expertise manifests itself in the quality of classroom learning and teaching and in the institutional environment and critically discusses challenges new directions and developments in pedagogy course and study program design classroom practice assessment and institutional policy An essential resource this book uniquely offers researchers educators and students in higher education new insights into the roots latest thinking practices and evidence surrounding SCLT in higher education **Reimagining Spaces for**

Learning in Higher Education Andrew Middleton,2019-10-10 This text challenges binary perceptions of space and explores the possibilities afforded by a hybrid learning space at the intersection of physical virtual formal and informal

spaces It examines how new technologies and modes of delivery including media enhanced learning and open education present opportunities as well as challenges Chapters are supported by a wealth of case studies which illustrate academic innovation in diverse learning spaces and demonstrate how it can be used to inspire learners and promote student engagement Packed with practical guidance and questions for reflection and discussion this thought provoking and timely guide is an essential resource for anyone involved in improving the student learning experience School Space and its Occupation ,2018-09-06 School Space and its Occupation addresses the ongoing and pressing need for justification of education and environmental innovation Further the increasingly important work of evaluating the new learning spaces brings attention to the need for conceptual and methodological clarity The editors have assembled a collection of leading authors to explore the links between education and design progression of ideas in education and architecture as well as making sense of pedagogical trends and spatial and design relevance Post occupancy evaluation is capable of informing both educational and architectural questions to generate sustainable adaptations for educators and designers Part 2 focuses on the occupancy phase and examines the lived experience of schools to draw conclusions and make recommendations focused impacts and methodological progression Contributors Renae Acton Scott Alterator Benjamin Cleveland Craig Deed Matthew Dwyer Debra Edwards Neil Gislason Wesley Imms Peter Lippman Elizabeth Matthews Marcus Morse Vaughan Prain Matthew Riddle Warren Sellers Rebecca Townsend and Adam Wood The Translational Design of Universities ,2019-08-12 Whilst schools are transforming their physical and virtual environments at a relatively glacial pace in most countries across the globe universities are under extreme pressure to adapt to the rapid emergence of the virtual campus Competition for students by online course providers is resulting in a rapidly emerging understanding of what the nature of the traditional campus will look like in the 21st century The blended virtual and physical technology enabled hybrid learning environments now integrate the face to face and online virtual experience synchronously and asynchronously Local branch campuses are emerging in city and town centres and international branch campuses are growing at a rapid rate There is increasing pressure at various levels i e the city the urban and the campus to create formal and informal learning spaces as well as re purposing the library and social or third spaces Many new hybrid campus developments are not based on any form of rigorous scholarly evidence The risk is that many of these projects may fail In taking an evidence based approach this book seeks to align with the model of translational research from medical practice using a modified translational design approach The majority of the chapter material comes from the scholarly work of doctoral graduates and their dissertations This book is the second in a series on the evidence based translational design of educational institutions with the first volume focussing on schools This volume on Higher Education covers the city to the classroom and those elements in between It also explores what the future might look like as judgements are made about what works in campus planning and design in our rapidly changing virtual and physical worlds Contributors are Neda Abbasi Ronald Beckers Flavia Curvelo Magdaniel Mollie

Education For Future Practice ,2010-01-01 Education for Future Practice engages with the challenge faced by higher education to envisage probable possible and desired futures for practice and education and to realise ways of educating practitioners for these futures Future education involves the pursuit of shared visions and purpose in the midst of the turbulence created by a diverse influences on education and practice These influences arise from learners participation in multiple practice and learning communities unpredictable workplaces dynamic education and practice market places the various demands and interests of stakeholders higher education imperatives and unparalleled opportunities and expectations associated with advancing information and communication technologies The book contains four sections Education for practice Contextualising practice Contextualising education for practice Doing education for practice *Higher Education Management and Operational Research* Gary Bell, Jon Warwick, Peter Galbraith, 2013-02-11 Higher Education in the UK operates in a rapidly changing and highly complex environment Universities need to adapt quickly to this environment and managers must begin to explore new angles and approaches in addressing the challenges they are now facing This book offers a tool box of metaphors and associative Operational Research OR approaches Metaphors are a powerful way of seeing but also a way of not seeing Furthermore the OR discipline has significantly evolved over the last 30 years which has led to the emergence of three distinctive intellectual areas namely Hard OR Soft OR and Methodological Pluralism OR Drawing on these intellectual areas and on the experience of educational and OR practitioners the book highlights the use of various OR approaches to a variety of complex and uncertain problems encountered in higher education management The book aims to explore new perspectives in HE management thinking and to describe and illustrate the use of OR methodologies methods and techniques in helping HE managers to make informed management decisions *Writing Studio Pedagogy* Matthew Kim, Russell Carpenter, 2017-02-22 Writing Studio Pedagogy WSP breaks from the tradition of teaching and responding to writing in traditional ways and moves the teaching and learning experience off the page and into engaging spaces in multiple ways which can enhance the composing process Through this collection scholars interested in rethinking approaches to teaching writing pedagogy and innovative learning will find new ways to challenge their own understandings of space place and collaboration WSP involves an attention to space and place in the development of rhetorical acts by focusing on the ways in which they enhance pedagogy This book takes a unique opportunity to return to pedagogy as the foremost priority in any learning space Educators might preference WSP for its emphasis on student centeredness by creating productive interactions intersections and departures that arrive from prioritizing learning WSP acknowledges the centralized role of students and teachers as co facilitators in learning and writing These threads are intentionally broad based as the chapters contained in this book speak to the complexity of WSP across institutions *Collaboration in Higher Education* Sandra

Abegglen, Tom Burns, Sandra Sinfield, 2023-05-18 Collaboration in Higher Education an open access book focuses on the opportunities and challenges created by engaging in collaboration and partnership in higher education As higher education institutions become ever more competitive to sustain their place in a global neoliberal education market students and staff are confronted with alienating practices Such practices create an individualistic audit and surveillance culture that is exacerbated by the recent COVID 19 pandemic and the wholesale pivot to online teaching In this atomised and competitive climate this volume synthesises theoretical perspectives and current practice to present case study examples that advocate for a more inclusive cooperative collaborative compassionate and empowering education one that sees learning and teaching as a practice that enables personal collective and societal growth The human element of education is at the core of this book focusing on what we can do and achieve together students academic staff higher education institutions and relevant stakeholders The ebook editions of this book are available open access under a CC BY NC ND 4 0 licence on

in Education, 2000-10 *Design for the Changing Educational Landscape* Andrew Harrison, Les Hutton, 2013-10-15 The whole landscape of space use is undergoing a radical transformation In the workplace a period of unprecedented change has created a mix of responses with one overriding outcome observable worldwide the rise of distributed space In the learning environment the social political economic and technological changes responsible for this shift have been further compounded by constantly developing theories of learning and teaching and a wide acceptance of the importance of learning as the core of the community resulting in the blending of all aspects of learning into one seamless experience This book attempts to look at all the forces driving the provision and pedagogic performance of the many spaces real and virtual that now accommodate the experience of learning and provide pointers towards the creation and design of learning centred communities Part 1

looks at the entire learning universe as it now stands tracks the way in which its constituent parts came to occupy their role assesses how they have responded to a complex of drivers and gauges their success in dealing with renewed pressures to perform It shows that what is required is innovation within the spaces and integration between them Part 2 finds many examples of innovation in evidence across the world in schools the higher and further education campus and in business and cultural spaces but an almost total absence of integration Part 3 offers a model that redefines the learning landscape in terms of learning outcomes mapping spatial requirements and activities into a detailed mechanism that will achieve the best outcome at the most appropriate scale By encouraging stakeholders to creating an events based rather than space based identity the book hopes to point the way to a fully integrated learning landscape a learning community
