Turning Average Instruction Into Great Instruction John O'Connor, 2009-01-16 Turning Average Instruction into Great Instruction details a clear and concise approach to school improvement focusing school leaders on the critical factor that has the greatest impact on student achievement classroom instruction Decades of research demonstrate that what happens between teachers and students in our nation's classrooms has the greatest impact on how well those students learn The current trend in school reform is to tackle all aspects of a school in order to improve student achievement forcing school leaders to attempt to focus on the school culture use of materials community relations teachers pre service training the school's physical design classroom decorations and instruction Unfortunately such a wide scope leads to a lack of focus among school staff With his singular focus on classroom instruction what O Connor suggests is an antithesis to that approach School leaders will develop a common understanding of the high impact instructional components that should be seen in every classroom O Connor maps out how school leaders can align all personnel to systematically build training support and monitoring mechanisms that ensure that effective instruction becomes part of every classroom routine *Atlanta Magazine*, 2007-01 Atlanta magazine's editorial mission is to engage our community through provocative writing authoritative reporting and superlative design that illuminate the people the issues the trends and the events that define our city The magazine informs challenges and entertains our readers each month while helping them make intelligent choices not only about what they do and where they go but what they think about matters of importance to the community and the region
