Professional Reporting Steven Renders, 2015-09-18 Discover tips and trick for Dynamics NAV report building About This
Book Create and customize reports in Dynamics NAV 2015 using RDLC Word Power BI and Reporting Services Work with
different elements in the toolbox such as tablix which can be used as a List Table or Matrix and understand the differences
between them and when to use which This book is a pragmatic guide with clear instructions and real world examples to teach
you about the reporting capabilities of Dynamics NAV 2015 Who This Book Is For If you are a consultant developer customer
user or just interested in the reporting capabilities of Dynamics NAV then this book is for you Basic knowledge of Dynamics
NAV will be helpful What You Will Learn Understand why reports are designed in a specific way and then apply this
knowledge to your advantage Develop document reports using different techniques Apply filtering and sorting and create
groups Use RDLC to visualize information Visualize information KPIs and trends using expressions Gauges Charts Data bars
Indicators and Spark lines Create and optimize your dataset for RDLC and for Word layouts Use Power BI with Dynamics
NAV to bring your data to life Build Reporting Services reports on top of Dynamics NAV In Detail Microsoft Dynamics NAV is
a multi lingual multi currency business management solution that organizations use to manage their accounts supply chain
sales payroll and HR It is an ERP tool for organizations that is fast to implement easy to configure and simple to use It is
widely used because simplicity is a part of its development product design usability and implementation This book will help
you to master analyze and deliver the most challenging reporting requirements in Dynamics NAV 2015 The book starts by
explaining report development and it s different phases such as data model layout and testing you go through It introduces
you to RDLC and the different controls in the toolbox such as the Tablix in its many forms You will learn to use expressions to
make your layout dynamic and to overcome typical problems Moving on the book will teach you to visualize data and be able
to understand and read a report as it is intended You will also learn to use Microsoft Word to create a layout for a report
With Power BI and Power Pivot Power View and Power Map you will learn how easy and powerful it is to bring your data to
life so you can spot trends and perform in depth analysis of your business Reporting Services is also explained as another
way that you can apply the knowledge you have about RDLC to build RDL layouts outside of Dynamics NAV By the end you
will create different types of charts so you can visualize key performance indicators inside the Dynamics NAV application
Style and approach This book is an essential guide in to understanding what is involved in creating reports in Dynamics NAV
