Goodnight

Hollywood John Stafford,2022-04-25 Good Night Hollywood is a critical look at the events leading up to the death of Marilyn Monroe For years the notion that she killed herself has floated round the public s eye due to this idea being falsely portrayed by her last known personal psychiatrist This book details the absurdity of his claims and takes an in depth look at the details of circumstances that surrounded her last days by outlining statements made by witnesses and by some of the closest people in her life Many of these statements have been overlooked or outright ignored to the detriment of the truth I attempt to reveal a reality much closer to the truth by examining these disregarded statements by witnesses who claim to be in the know a review of her autopsy report and the dissecting of the institutions of power that surrounded Marilyn Monroe All of those reasons combined played a significant role in her life and untimely demise Unlike many other theories that attempt to solve the case by assigning blame to one individual or one group of people this book intertwines the characters in her life to show how they are all connected Just like a row of dominoes once the first domino falls it is inevitable that they will all fall What is left in the aftermath is an early end to a beloved movie star and a public that is duped into swallowing a false story that protects the guilty while reinforcing the perils of drug dependency and the Hollywood lifestyle

Lbj the Dallas

Incident Dr. John Chandler Griffin,2013-08-01 The Kennedy Incident November 22 2013 will mark the 50th anniversary of the greatest crime ever committed in this great nation the assassination of John F Kennedy the president of the United States Then two days later the man accused of having committed that crime Lee Harvey Oswald was also murdered shot down in the Dallas Police Headquarters by mob thug Jack Ruby The nation was aghast How could such things happen in 20th century America Ah but not to worry President Lyndon Baines Johnson immediately announced the appointment of a blue ribbon committee chaired by none other than the Chief Justice of the Supreme Court Earl Warren to discover just how such murders could have happened in Dallas Texas in 1963 Known as the Warren Commission it was a committee whose judgment could not be questioned But then a year later the WC issued its report known as the Warren Commission Report and almost immediately citizens from one end of the country to the other were yelling questions chard questions that insulted both the WC s judgment and its objectivity As though that were not bad enough A few months later a New York attorney Mark Lane

hired by Oswald's mother to vindicate her son published his myth shattering book *Rush To Judgment* The Warren Commission was blown out of the water But still no satisfactory answers were forthcoming Lyndon Baines Johnson and his political sycophants were very happy to blame Oswald for the entire tragedy Anyone but themselves Then in New Orleans rose a new challenge District Attorney Jim Garrison began his investigation into the murders But again the Federal Government reared its ugly head State governors across the nation were advised to ignore subpoenas to testify in Garrison's trial And in almost every instance those governors obeyed their orders Other essential witnesses simply committed suicide Garrison himself was pilloried and held up to ridicule by the national news media Still he persisted In the end with no witnesses to testify Garrison's trial ended in not guilty verdicts Still after 50 years he remains the only person ever to bring anyone to trial for the murders that occurred in Dallas some fifty years ago In this book based on the evidence and testimony associated with the murders of Kennedy and Oswald I have tried to present events as they actually occurred and show who was truly behind them And I do so with no apologies to anyone I will say that my heart goes out to Marina Oswald and her two daughters June Lee and Rachel May God be with them

Shocking and Sensational Julian Upton, 2018-06-08 Already part of a genre known for generating controversy some true crime and scandal books have wielded a particular power to unsettle readers provoke authorities and renew interest in a case The reactions to such literature have been as contentious as the books themselves clouding the truth with myths and inaccuracies From high profile publishing sensations such as *Ten Rillington Place Fatal Vision* and *Mommie Dearest* to the wealth of writing on the JFK assassination the death of Marilyn Monroe and the Black Dahlia murder this book delves into that hard copy era when crime and scandal books had a cultural impact beyond the genre's film and TV documentaries fueling outcries that sometimes matched the notoriety of the cases they discussed and leaving legacies that still resonate today
