Resources in Education, 2000-04 **Marine Science** Great Britain: Parliament: House of Commons: Science and Technology Committee, 2013-04-11 Properly managed Marine Conservation Zones will protect marine life the UK's coastal waters and ensure the fishing industry has a sustainable long term future The Government is currently letting the project flounder while sensitive environments are further degraded and the industry is subjected to further uncertainty It has been over three years since the Marine and Coastal Access Act was passed with cross party consensus that Marine Conservation Zones were necessary and has widespread public support Despite this the designation process has been repeatedly delayed and Marine Conservation Zones have become increasingly controversial 127 Marine Conservation Zones have been proposed but Defra has consulted on only 31 of these without setting out the zone selection process when these would be implemented or exactly how they would be managed The Committee welcomes the publication of the Marine Science Strategy and establishment of the Marine Science Coordination Committee However it notes concerns about the effectiveness of these measures and highlights the risk that changes to funding mechanisms could undermine support for long term strategic marine science It is also recognised that the Natural Environment Research Council is currently operating with inadequate resources but it should consider the impact that restructuring its research funding has had on its support for strategic marine science The Committee recommended there should be a duty on commercial operations to share the data they collect It is concerning that funding for important long term monitoring programmes remains opportunistic and piecemeal Developments in technologies such as autonomous underwater vehicles could dramatically alter the way in which marine data is collected *Marine Science* Christina Reed, 2009 Chronicles the history of marine science from 1901 documenting the significant discoveries of the 20th century by notable marine and other scientists CTET Paper 2 : Maths & Science Study Guide Book (Class 6 to 8) | Central Teacher Eligibility Test | Theory Notes & Practice (MCQs) for Complete Preparation , Panel Reports of the Commission on Marine Science, Engineering and Resources United States.
