and conveniences of our modern first world society quickly come to an end Imagine yourself far from home when the world suddenly changes Just think back to Hurricane Katrina Hurricane Sandy and other such recent events and you can see just how quickly society breaks down Those situations even occurred with the nature of the emergency being confined to one specific geographic area where help is just the next town or state away Now also think about how that scene would play out if help was not going to come What if those who you would look to for help had their own emergencies to contend with leaving you and those around you to fend for yourselves What about all of those modern conveniences of society like ATM s point of sale debit credit card readers cell phones and the internet What if it all went down while you were away from home What about our food supply chain How much food does your family have at home to get them through if the shelves were to go empty How much do you have with you Will it all go bad without electricity Do you have what it takes to defend yourself and those around you when society takes an ugly turn and violence becomes necessary for survival Those are a few of the things that this book helps you think about In *The Last Layover* an airline crew finds themselves on an overnight layover in New York City far from their homes when a series of events take place that bring our modern society to its knees Join them as they face the dangers and difficulties of trying to make their way back to their homes and families in a rapidly deteriorating society without our modern transportation and communications infrastructure all while dealing with the lawlessness and violence that quickly ensues in a desperate and broken society Discover with them the dark side that humanity can quickly take as well as the good that can come from faith family and friendship

The Collaborative Fight Paul R. Birch,Lina M. Svedin,2024-02-09 The beautiful picture of brothers in arms vanquishing a tyrant The power of a well orchestrated army and navy winning historic battles Overwhelming military might and ability through teamwork This is how the US military services portray themselves to the public and to their own service members through official doctrine However under the veneer of jointness deeply fraught processes are at play Frequently the services think more about protecting organizational turf than about national security and maintaining an advantage against the United States external adversaries Uniting US military services is a difficult endeavor that becomes even more so the farther from a battlefield and the higher up the command structure the unifying needs to happen In *The Collaborative Fight* Paul R Birch and Lina M Svedin examine cases of institutional jointness among US military services from the late nineteenth century into the twenty first century They draw actionable conclusions for practitioners in the defense establishment while giving examples of successful joint cooperation that overcame the difficulties inherent in pursuing it Even the successful cases that Birch and Svedin discuss show that the US military services face bureaucratic incentives and organizational leadership issues that make battlefield cooperation less than ideal Birch and Svedin adeptly translate theory and history into approaches useful to practitioners in the field while examining the
