Toward a Recovery of Nineteenth Century Farming Handbooks

Titles are centered and written in 12-point, Times New Roman font. The title is not bolded, underlined, or italicized.

In the first section, I provide an account of three important events in nineteenth century agricultural history: population and technological changes, the distribution of scientific new knowledge, and farming's influence on education. In the second section, I discuss three nineteenth century farming handbooks in connection with the important events described in the first section. I end my paper with a third section that offers research questions that could be answered in future versions of this paper as
