Irrungen Wirrungen German Edition

Brian Nelson, Brigid Maher

Irrungen Wirrungen German Edition:

Theodor Fontane and the European Context ,2021-12-28 On the centenary of Fontane's death and at the turn of the century these essays take a new look at this supreme chronicler of Prussia and of the Germany that emerges after 1871. Written by scholars from different countries and disciplines they focus on novels and theatre reviews from the perspectives of philosophy sociology comparative literature and translation theory and in the contexts of topography and painting. Connections and crosscurrents emerge to reveal new aspects of Fontane's poetics and to produce contrasting but complementary readings of his novels. He appears in the company of predecessors and contemporaries such as Scott Thackeray Saar Ibsen Turgenev but also in that of writers he has rarely if ever been seen beside such as E T A Hoffmann Stendhal Trollope Henry James and Edith Wharton. Beckett and Faulkner. The historical novel and the social position of women are each a recurring focus of interest. Fontane emerges as receptive to other voices as a precursor of developments in modern narrative and confirmed as the novelist who brings the nineteenth century German novel closest to the broad traditions of European realism. *Fontane's Landscapes* James N. Bade,2009 Aimed primarily at English speaking undergraduate students of German literature but also with graduate students and a general readership in mind this book deals with the literary landscapes in Theodor Fontane's best known novels *Schach von Wuthenow* 1882 *Irrungen Wirrungen* 1888 and *Effi Briest* 1895. It is an illuminating introduction to one of Europe's finest novelists. It is an excellent idea to guide readers through the novels by way of focusing on the landscapes. James Bade brings an enormous amount of material into the discussion and is always detailed and precise. The book reads very well and enriches the Fontane literature publisher website.

The Changing Image of Theodor Fontane Helen Chambers,1997 Wide ranging survey of the criticism devoted to Theodor Fontane with particular emphasis on more recent theoretical trends. This study of the literary scholarship on Fontane's narrative works is the first to present a systematic review of the ever growing body of criticism on Germany's major realist novelist. Significant developments in Fontane criticism are traced in historical context from their beginnings in contemporary commentary to the present day. The author places special emphasis on scholarship since 1980 analysing the influence of new literary critical trends in this period. She also considers the effect upon traditional literary criticism of feminism psychoanalysis and comparatist approaches and the fresh developments in reception history translation and media studies.

The German Puzzle Paul Drexler,2010-09-23 More Americans claim ancestry from Germany than from any other nation. We speak a Germanic language and from fairy tales to Freud were surrounded by German influences. Yet America has lost touch with its German heritage. We simply can't fathom how the land of Beethoven and Goethe could have been responsible for WW II and the Holocaust. In *The German Puzzle* the author recounts his own journey of rediscovery. Drawing on a unique mix of personal and family experience ranging from schoolyard fisticuffs to the exuberance of the New Berlin he offers us a fresh perspective on the German world and how it shaped America. Enumerations Andrew Piper, 2018-08-29

For well over a century academic disciplines have studied human behavior using quantitative information Until recently however the humanities have remained largely immune to the use of data or vigorously resisted it Thanks to new developments in computer science and natural language processing literary scholars have embraced the quantitative study of literary works and have helped make Digital Humanities a rapidly growing field But these developments raise a fundamental and as yet unanswered question what is the meaning of literary quantity In Enumerations Andrew Piper answers that question across a variety of domains fundamental to the study of literature He focuses on the elementary particles of

literature from the role of punctuation in poetry the matter of plot in novels the study of topoi and the behavior of characters to the nature of fictional language and the shape of a poet's career How does quantity affect our understanding of these categories What happens when we look at 3 388 230 punctuation marks 1 4 billion words or 650 000 fictional characters Does this change how we think about poetry the novel fictionality character the commonplace or the writer's career In the course of answering such questions Piper introduces readers to the analytical building blocks of computational text analysis and brings them to bear on fundamental concerns of literary scholarship This book will be essential reading for anyone interested in Digital Humanities and the future of literary study **Clausewitz and Modern Strategy** Michael I.

Handel, 2012-11-12 Published in 1996 Clausewitz and Modern Strategy is a valuable contribution to the field of Military Strategic Studies The magnum opus of Carl von Clausewitz On War is a work frequently quoted usually the one famous quotation but often superficially read The essays in this book were presented at an international conference On Clausewitz held at the US Army War College in Carlisle Barracks Pennsylvania in April 1985 **The Edinburgh University Calendar** University of Edinburgh, 1967 *Trivium*, 1968 **Perspectives on Literature and Translation** Brian Nelson, Brigid Maher, 2013-10-15 This volume explores the relationship between literature and translation from three perspectives the creative dimensions of the translation process the way texts circulate between languages and the way texts are received in translation by new audiences The distinctiveness of the volume lies in the fact that it considers these fundamental aspects of literary translation together and in terms of their interconnections Contributors examine a wide variety of texts including world classics poetry genre fiction transnational literature and life writing from around the world Both theoretical and empirical issues are covered with some contributors approaching the topic as practitioners of literary translation and others writing from within the academy Theodor Fontane: The Major Novels Alan Bance, 1982 In this 1982 book Professor Bance sets the novels of Theodor Fontane in the context of nineteenth century Europe in order to demonstrate that his oeuvre can be seen in terms of a tension between a desire to present the facts and a desire to assert some transcendent poetic truth
