The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played

throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune women's and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike New Economic Spaces: New Economic Geographies James W.

Harrington, 2017-11-28 As a core volume in the Dynamics of Economic Space series contributors from North America Australasia Europe and the Middle East each address the constitutive processes of new economic and institutional spaces and the theoretical methodological and policy engaging practices of emerging economic geographies Together they provide a timely and important overview of the current debates about the geographies of economic change As national and regional economies change rapidly so the frameworks concepts and methods used to describe and analyse those processes also need to evolve This volume puts forward a comprehensive analysis of a range of different and innovative means currently available through which to view regional economic activities and interactions *Introducing the New Sexuality Studies* Nancy L.
