

**INSTALLATION INSTRUCTIONS FOR THE SENSOR AND AFTER-HOURS SWITCH KIT
 USED WITH L CONNECTION NETWORK**

Shipping and Packing List

Package 1 of 1 contains:

- 1 - Sensor (A2) or After-Hours Switch (S56)
- 2 - Screws

IMPORTANT - Use 22AWG minimum, 1 twisted pair shielded cable (100% aluminum shield with drain wire, Teflon jacket). Lennox P/N's 94L63, 27M19, 68M25, and Belden type 98751 are equivalent.

⚠ WARNING

Personal injury, loss of life, or damage to property! Installation and service must be performed by a qualified installer or service agency.

Improper installation, adjustment, alteration, service or maintenance can cause personal injury, loss of life, or damage to property.

Application

Either a zone or return air sensor is required on each rooftop unit in an L Connection™ network. The L Connection network provides direct digital communication to a single or network of rooftop units. A PC or a network control panel (NCP) can then be used to monitor and/or control the system.

56L80 and 94L60 sensors contain a data port which can be wired to interface with the L Connection network. The data port does not have to be wired or in operation for the system to function; it is a monitoring and diagnostic feature.

56L80 zone sensor contains a warmer/cooler adjustment lever which allows a ± 1 degree set point shift. A DIP switch on the sensor base can be adjusted to increase the range to ± 4 degrees or limit the range to no-adjustment.

An after hours switch is provided on 56L80 and 94L60 zone sensors. A separate after hours switch must be installed when this feature is desired on systems using a 56L81 return air sensor, a 94L81 zone sensor, or a 76M32 zone sensor.

Cat. No.	Features
56L80	Wall-mount; communication port; after hours override switch; warmer/cooler adjustment with options.
94L60	Wall-mount; communication port; after hours override switch.
94L61	Wall-mount.
56L81	Duct-mount; installed in return air.
76M32	Wall-mount; flush-mount; stainless steel.
56L16	After Hours Switch

Wall-Mount Sensor Location

Install sensor on a standard handy box or directly on wall. Locate sensor in conditioned space approximately 5 feet (1-1.2m) above the floor in an area with good air circulation at average temperature. Avoid locating the room thermostat where it might be affected by:

- drafts or dead spots behind doors and in corners
- hot or cold air from ducts
- radiant heat from sun or appliances
- concealed pipes and chimneys

Zone Sensors - 56L80, 94L60, 94L61

1. Route cable from the unit controller to an appropriate location in the conditioned space. Make wire connections to unit as shown in figure 1.

Figure 1. Sensor Wiring

Accounting Standards and Procedures for Counties, 1985 Electromagnetic Compatibility Handbook Kenneth L. Kaiser, 2004-09-29 As the number of electrical devices in use continues to grow so do the challenges of ensuring the electromagnetic compatibility EMC of products and systems Fortunately engineers have at their disposal an array of approximations models and rules of thumb to help them meet those challenges Unfortunately the number of these tools and guidelines is overwhelming and worse still is the thought of investigating their origins and confirming their results The Electromagnetic Compatibility Handbook is an unprecedented compilation of the many approximations guidelines models and rules of thumb used in EMC analyses complete with their sources and their limitations The book presents these in an efficient question and answer format and incorporates an extremely comprehensive set of tables and figures The author has either derived from basic principles or obtained and verified from their original sources all of the expressions in the tables Mathcad was used to generate most of the plots and solve many of the equations and the author includes the Mathcad programs for many of these so users can clearly see the variable assignments assumptions and equations Designed to be of long lasting value to engineers researchers and students the Electromagnetic Compatibility Handbook is ideal both for quick reference and as a textbook for upper level and graduate electrical engineering courses **The Bibliographer's Manual**
