Start developing efficient OpenVX code instantly. Understand design principles and use them to create robust code. Develop consumer and industrial products that use computer vision to understand and interact with the real world. *Going Beyond*

Janelle Sander, Lori S. Mestre, Eric Kurt, 2015-01-20 Providing library users with actual pieces of technological equipment that they can borrow is a continuously expanding service at many libraries especially as faculty and teachers require multimodal projects. For some libraries loanable technology may include calculators, gaming devices, headphones, e readers, laptops and tablets. Increasingly though there is also demand for all types of cameras, lighting, voice recorders, microphones, external storage devices, projectors, peripherals and converters among hundreds of possibilities. Based on their successful program at a large research institution, the authors provide a practical manual complete with examples, forms and templates that cover all aspects of establishing and maintaining a loanable technology program. *Going Beyond Books to Loaning Technologies: A Practical Guide for Librarians* provides the nuts and bolts and the behind the scenes details of developing a program and walks librarians and information technology professionals through even some of the complex decisions and processes such as needs assessment, budget allocation, selecting, cataloging, processing and storing equipment, circulation, billing and troubleshooting, training, collaborating with others to offer consultation services, marketing and assessment. Practical and easy to understand, here is a one stop guide for anyone interested in lending technology to patrons. **GoPro Cameras**
