If for example something goes amiss as you're installing the latest greatest version of OS X you can be assured that you'll find it in the first chapter Installation. If later in the day you press your Mac's power button and nothing good results you'll find help in the next chapter which addresses start up issues crashes and freezes. Have a problem with hardware next. Simply page on to Hardware Help. And so on through the System Issues Fixes OS X's Applications the Internet Networking and Mac Maintenance chapters. And if despite all of your diligent efforts no solution is found there are directions for what to do next in the Support Tricks chapter. But allow me to also extend a personal invitation to Macworld's Mac 911 forum where I and other knowledgeable Mac users are eager to lend a helping hand.
