Belonging in the Dominican Republic Eve Hayes de Kalaf, 2021-11-02 This book offers a critical perspective into social policy architectures primarily in relation to questions of race national identity and belonging in the Americas It is the first to identify a connection between the role of international actors in promoting the universal provision of legal identity in the Dominican Republic with arbitrary measures to restrict access to citizenship paperwork from populations of largely but not exclusively Haitian descent The book highlights the current gap in global policy that overlooks the possible alienating effects of social inclusion measures promulgated by international organisations particularly in countries that discriminate against migrant descended populations It also supports concerns regarding the dangers of identity management noting that as administrative systems improve new insecurities and uncertainties can develop Crucially the book provides a cautionary tale over the rapid expansion of identification practices offering a timely critique of global policy measures which aim to provide all people everywhere with a legal identity in the run up to the 2030 UN Sustainable Development Goals SDGs

Incitement on Trial Richard Ashby Wilson, 2017-08-18 International and national armed conflicts are usually preceded by a media campaign in which public figures foment ethnic national racial or religious hatred inciting listeners to acts of

violence Incitement on Trial evaluates the efforts of international criminal tribunals to hold such inciters criminally responsible This is an unsettled area of international criminal law and prosecutors have often struggled to demonstrate a causal connection between speech acts and subsequent crimes This book identifies revenge speech as the type of rhetoric with the greatest effects on empathy and tolerance for violence Wilson argues that inciting speech should be handled under the preventative doctrine of inchoate crimes but that once international crimes have been committed then ordering and complicity are the most appropriate forms of criminal liability Based in extensive original research this book proposes an evidence based risk assessment model for monitoring political speech

Theories of Co-perpetration in International Criminal Law Lachezar D. Yanev,2018-05-07 The proper construction of co perpetration responsibility in international criminal law has become one of the most enduring controversies in this field with the UN Tribunals endorsing the theory of joint criminal enterprise and the International Criminal Court adopting the alternative joint control over the crime theory to define this mode of liability This book seeks to reconcile the ICTY R s and ICC s jurisprudence by providing a definition of co perpetration that could be uniformly applied in the two justice models that these institutions represent the ad hoc and the treaty based model An evaluation framework is adopted pursuant to which the origins merits and deficiencies of the said competing theories are critically assessed and a refined legal framework of co perpetration responsibility is proposed
