Survival Migration Alexander Betts, 2013-07-12 International treaties conventions and organizations to protect refugees were established in the aftermath of World War II to protect people escaping targeted persecution by their own governments However the nature of cross border displacement has transformed dramatically since then Such threats as environmental change food insecurity and generalized violence force massive numbers of people to flee states that are unable or unwilling to ensure their basic rights as do conditions in failed and fragile states that make possible human rights deprivations Because these reasons do not meet the legal understanding of persecution the victims of these circumstances are not usually recognized as refugees preventing current institutions from ensuring their protection In this book Alexander Betts develops the concept of survival migration to highlight the crisis in which these people find themselves Examining flight from three of the most fragile states in Africa Zimbabwe the Democratic Republic of Congo and Somalia Betts explains variation in institutional responses across the neighboring host states There is massive inconsistency Some survival migrants are offered asylum as refugees others are rounded up detained and deported often in brutal conditions The inadequacies of the current refugee regime are a disaster for human rights and gravely threaten international security In Survival Migration Betts outlines these failings illustrates the enormous human suffering that results and argues strongly for an expansion of protected categories

The Migration Conference Abstracts Book The Migration Conference Team, 2022-09-07 The Migration Conference is the largest international annual academic event on migration with a global scope and participation Participants of the TMC2022 Rabat have come from all around the world presenting and discussing migration Researchers from over 70 countries have presented their work at the Conference The conference entertained 3 plenary sessions 6 panel discussions 4 workshops and 1 movie screening over four days 8 sessions were held in French and Arabic while 6 sessions in Spanish and 3 sessions were in Turkish The topics covered in the

conference included integration acculturation migration policy and law labour markets theory and methods in migration studies culture communication climate change conflicts insecurities media gender remittances high skilled migration and several other key topics Several sessions have focused on migration in Morocco and North Africa www.migrationconference.net/migrationevent fb me MigrationConference Email migrationscholar@gmail.com **A New Perspective on Human Mobility in the South** Rudolf Anich, Jonathan Crush, Susanne Melde, John O. Oucho, 2014-07-22 This book offers innovative insights on South-South human mobility. It features a collection of papers that highlight often overlooked mobility patterns among and within regions in the global South as well as address critical realities faced by South-South migrants. This publication thoroughly investigates key issues of the migration debate spanning from the terminological and contextual meaning of migration and development. It also critically examines some of the key features that human mobility in the global South is characterized by, including the prevalence of intra-regional and labor mobility, the role of diasporas, communities in developing countries, South-South remittance patterns, the influence of environmental factors on the decision to migrate, and the rising number of child migrants. By carefully moving the lens from the frequently examined North-South and North-North movements to human mobility within the Southern regions of the world, this book questions the traditional conception of the migration paradigm. It offers knowledge and insights that will help to expand the debate as well as stimulate further research on this important topic and hopefully promote future activities aimed at the protection of migrants and their families living in the South. As a result, it is an ideal resource for migration scholars, policy makers, and development practitioners.

Global Human Smuggling Luigi Achilli, David Kyle, 2023-12-05 Completely revised and updated, an essential edited collection of essays on global human smuggling. Migrant smuggling is now more entrenched than ever in many regions around the world, with efforts to combat it both largely unsuccessful and often counterproductive. In *Global Human Smuggling*, editors Luigi Achilli and David Kyle bring together up-to-date contributions from a wide array of interdisciplinary scholars on the most important issues related to this global phenomenon. Contributors explore human smuggling in several nuanced forms across diverse regions, examining its deep historical, social, economic, and cultural roots as well as its broad political consequences. This volume represents a cutting-edge chronicle of the state of human smuggling today, its many complexities not easily reduced to simple moral narratives, and how researchers uncover the lives it affects both directly and indirectly. Just as migrants cross borders for a variety of reasons, many of those involved in migrant smuggling activities have an equally diverse set of motivations and organizations, ranging from those helping people escape persecution and violence to transnational criminal syndicates preying on the vulnerabilities of migrants attempting to leave their countries. Building on the pioneering work of its previous two editions, this new volume introduces contributions organized by the themes of control, complexity, and creativity. Spanning issues around the world, the essays in this essential collection cover topics such as global migrant smuggling networks, government responses, multinational initiatives against human trafficking for sexual exploitation,

representations of human smuggling in mainstream narratives of migration and more With nineteen new contributors the third edition of Global Human Smuggling represents the progress of human smuggling research on every continent and offers a rare research based and conceptual framework for the study of this critical global issue , *L'Enjeu mondial - Les migrations* Christophe Jaffrelot,Christian Lesquene,2009-09-27T00:00:00+02:00 L acc l ration de la mondialisation la circulation des capitaux internet et les technologies de communication l mergence et l urbanisation des pays du Sud le vieillissement des pays du Nord l instabilit et les crises politiques mais aussi le changement climatique donnent une ampleur sans pr c dent aux migrations et aux mobilit s humaines qui ne cessent d augmenter et de se diversifier soulevant de nombreux d bats dans les pays de d part comme dans les pays d accueil Global et massif le ph nom ne migratoire justifie la recherche de nouvelles formes de gouvernance au niveau mondial L Enjeu mondial en propose une analyse en cinq volets th matiques 1 l volution r cente des migrations internationales 2 les migrations int rieures qu elles soient libres ou forc es 3 un Sud terre de migrations 4 un Nord entre rejet et int gration 5 et enfin les diasporas et leur utilit pour les pays d origine Sous la direction de Christophe Jaffrelot et de Christian Lequesne directeur du CERI Centre d tudes et de recherches internationales de Sciences Po avec la collaboration des meilleurs sp cialistes L Enjeu mondial se propose d clairer l un des grands enjeux mondiaux contemporains combinant analyses et cartographie in dites Ont contribu cet ouvrage William Berthomie Didier Bigo Jean Marie Bouissou David Camroux R mi Castets Fred Constant Anne Daguerre Dominique Daniel Chlo Froissart Jean Jacques Gabas Fran ois Gemenne Souley Hassane Bertrand Hervieu Riva Kastoryano Sma n Laacher Thomas Lacroix Emmanuel Ma Mung Kuang Jean Baptiste Meyer Christian Olsson S bastien Peyrouse Fran ois Purseigle velyne Ritaine Daniel Sabbagh Sylvain Souchaud Catherine Teitgen Colly Ingrid Therwath Vincent Tiberj Anne de Tinguy Mich le Tribalat Aurelia Wa Kabwe Segatti Catherine Wihtol de Wenden Aristide Zolberg *The Challenge of the Threshold* Jocelyne Streiff-Fenart,Aurelia Wa Kabwe-Segatti,2012-01-01 The recent containment policies aimed at regulating immigration flows towards Europe have profoundly altered the dynamics of migration in Africa The impact of these policies is apparent in the redefinitions of the routes itineraries and actors of migration But their effect can also be felt in migrant categories and identities and in the perceptions of migrants in the societies through which they transit or the communities which they have left behind By placing the problem of border control at the very heart of the migration issue the policies aimed at the restriction of migration flows have changed the meaning and significance of migration More than ever before both migrants and institutions in charge of border control construe migration mostly around the challenge of border crossing In the Global South the transit situation in which would be border jumpers are retained blurs the distinction between temporary migration and settlement This contributes to change in various ways the relationship to strangers from renewed forms of solidarities to the reactivation of latent xenophobic sentiment whether around the Mediterranean or en route towards South Africa the other migration hub on the continent The editors of this volume have decided to work on the notion

of threshold as an operative concept for addressing the multiple dimensions of the issue the discursive and conceptual frameworks that constitute the backbone of threshold policies aiming to keep undesirables beyond borders the constitution of stopping places intermediate areas and relay towns which all represent threshold spaces that challenge local urban equilibria and the experience of liminality in which individuals caught for a time between two states as migrant on the road and as immigrant the state to which they aspire experience the typically ambiguous situations characteristic of threshold people Turner While ambitioning to innovate theoretically and methodologically the volume is above all *Hometown*

Colonial Culture in France since the Revolution

Pascal Blanchard,Sandrine Lemaire,Nicolas Bancel,Dominic Thomas,2013-12-02 This landmark collection by an international group of scholars and public intellectuals represents a major reassessment of French colonial culture and how it continues to inform thinking about history memory and identity This reexamination of French colonial culture provides the basis for a revised understanding of its cultural political and social legacy and its lasting impact on postcolonial immigration the treatment of ethnic minorities and national identity

Multilingual Europe, Multilingual Europeans,2015-06-29

Multilingualism is a crucial if often unrecognized marker of new European identities In this collection of essays we observe how a plurilingual and pluricultural political entity practices and theorizes multilingualism We ask which types of multilingualism are defined encouraged or discouraged at the level of official policies but also at the level of communities We look at speakers of hegemonic or minority languages at travellers and long term migrants or their children and analyse how their conversations are represented in official documents visual art cinema literature and popular culture The volume is divided into two parts that focus respectively on Multilingual Europe and Multilingual Europeans The first series of chapters explore the extent to which multilingualism is treated as both a challenge and an asset by the European Union examine which factors contribute to the proliferation of languages globalisation the enlargement of the European Union and EU language policies The second part of the volume concentrates on the ways in which cultural productions represent the linguistic practices of Europeans in a way that emphasizes the impossibility to separate language from culture nationality but also class ethnicity or gender The chapters suggest that each form of plurilingualism needs to be carefully analysed rather than celebrated or condemned

Chinese Migrants in Paris Simeng Wang,2021-06-22 This research employs the narrative

of mental suffering as a prism through which to study Chinese migration in France It provides new analytical angles and new perspectives on the paradoxical existence and conditions of the migrants and traces the social links between individuals and societies objectivity and subjectivity the real and the imaginary The ethnographic survey in this study is situated in the context of the transformation of Chinese society over the last forty years Dr Wang deconstructs the stereotypes of Chinese people demonstrates the dynamics of social mobilities and heterogeneous living conditions of Chinese migrants who experience and narrate happiness as well as pain joy as well as sorrow and hope as well as despair The transversal approach used to analyse the heterogeneity within an ethnic group will be of interest to scholars of migration studies in general

Borders, Fences and Walls Elisabeth Vallet, 2016-04-08 Twenty years after the fall of the Berlin Wall the question remains Do good fences still make good neighbours Since the Great Wall of China the Antonine Wall built in Scotland to support Hadrian's Wall the Roman Limes or the Danevirke fence the wall has been a constant in the protection of defined entities claiming sovereignty East and West But is the wall more than an historical relict for the management of borders In recent years the wall has been given renewed vigour in North America particularly along the US-Mexico border and in Israel-Palestine But the success of these new walls in the development of friendly and orderly relations between nations or indeed within nations remains unclear What role does the wall play in the development of security and insecurity Do walls contribute to a sense of insecurity as much as they assuage fears and create a sense of security for those behind the line Exactly what kind of security is associated with border walls This book explores the issue of how the return of the border fences and walls as a political tool may be symptomatic of a new era in border studies and international relations Taking a multidisciplinary approach this volume examines problems that include security issues the recurrence and/or decline of the wall wall discourses legal approaches to the wall the wall industry and border technology as well as their symbolism role objectives and efficiency
