India China L.H.M. Ling, Adriana Erthal Abdenur, Payal Banerjee, Nimmi Kurian, Mahendra P. Lama, Li Bo, 2021-03-11 Challenging the Westphalian view of international relations which focuses on the sovereignty of states and the inevitable potential for conflict the authors from the Borderlands Study Group reconceive borders as capillaries enabling the flow of material cultural and social benefits through local communities nation states and entire regions By emphasizing local agency and regional interdependencies this metaphor reconfigures current narratives about the China India border and opens a new perspective on the long history of the Silk Roads the modern BCIM Initiative and dam construction along the Nu River in China and the Teesta River in India Together the authors show that positive interaction among people on both sides of a border generates larger cross border communities which can pressure for cooperation and development India China offers the hope that people divided by arbitrary geo political boundaries can circumvent race gender class religion and other social barriers to form more inclusive institutions and forms of governance

economy and product lifetimes business opportunities economic implications and marketing strategies consumer influences on product lifetimes and policy regulation and legislation The book will be of interest to all those concerned with sustainable consumption circular economy and resource efficiency *The Politics of Energy Security* Johannes Kester,2018-06-12

Energy security is known for its slippery nature and subsequent broad range of definitions Instead of another attempt to grasp its essence this book offers a critical reflection that problematizes the use of energy security itself After a short historical and methodological analysis of the proliferation of energy security *The Politics of Energy Security* unpacks three social practices that drive energy security These include an analysis of the logics of security a study of the relation between the materiality of sociotechnical energy systems and the knowledge people have over such systems and a reflection on the power and politics behind energy security Each of these are discussed and ultimately illustrated in the last chapter to show how energy security works how it is shaped and what role it plays within political processes Based on a novel performative reading of energy security with its focus on ontological politics and an in depth look at the often implicitly accepted social practices that determine how people shape and are shaped by energy security this book will be of great interest to students and scholars of energy security and policy political theory international relations critical security studies and environmental studies more broadly **Sustainable Peace in Northeast Asia** Yong-Shik Lee,2023-09-05

Gebresenbet,John G. Galaty,Günther Schlee,2021-01-15 Rangeland forests and riverine landscapes of pastoral communities in Eastern Africa are increasingly under threat Abetted by states who think that outsiders can better use the lands than the people who have lived there for centuries outside commercial interests have displaced indigenous dwellers from pastoral territories This volume presents case studies from Eastern Africa based on long term field research that vividly illustrate the struggles and strategies of those who face dispossession and also discredit ideological false modernist tropes like

backwardness and primitiveness *The ^APopulist Temptation* Barry Eichengreen,2018-05-03 Lucidly explaining both the appeals and dangers of populism across history this book is essential reading for anyone seeking to understand not just the populist phenomenon but more generally the lasting political fallout that follows in the wake of major economic crises

From Head Shops to Whole Foods Joshua C. Davis,2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs *From Head Shops to Whole Foods* writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today s companies have adopted the language but not often the mission of liberation and social change *Sqa Specimen Paper 2014 Past Paper National 5 Geography and Hodder Gibs Sqa* (Hodder Ed),2014-09-26 *Memorandum on the Teaching of Geography. (Second edition.) [Edited by C. H. Saxelby.] With a bibliography* Assistant Masters' Association. Geography Sub-Committee,Charles Harold SAXELBY,1939
