

BEAC CPEA Environmental Compliance Examination Study Guide

Introduction and General Structure of the Examination

Introduction

This study guide is intended to assist an applicant in preparing for the BEAC Environmental Compliance Auditor Examination. The study guide consists of four sections:

1. **General Structure of the Examination:** Gives an overview of the examination structure, pass/fail criteria, and timing;
2. **Examination Outline:** Lists the topics and subject areas covered by the examination;
3. **Sample Questions and Answers:** Provides examples similar to actual questions on the examination. Answers are provided for the example multiple choice questions, but not for the example essay questions;
4. **Reference List:** Lists other books and documents that BEAC believes are generally accepted sources, which may be useful to the examinee and from which some of the questions may have been derived.

Note: The study guide does not address "test-taking" strategies or tactics. If it has been some time since you last sat for an examination, it might be useful to refresh your memory of the basics. (e.g., Read questions carefully. Don't agonize too long over a troublesome question; skip it and come back later if time permits. Don't make random guesses, etc.)

1. General Structure of the Examination

The BEAC Environmental Compliance Auditor Examination consists of three parts:

- | | |
|-----------|--|
| Part I. | Basic Principles of Auditing (131 multiple choice questions; answer all) |
| Part II. | Environmental Requirements (120 multiple choice questions; answer all) |
| Part III. | Understanding Environmental Compliance Standards (4 multi-part essay questions; you are to answer all) |

The examination will be administered in three two-hour segments with a short break between each part of the examination.

Parts I, II, and III of the examination are equally weighted. The "pass/fail" criterion for the CPEA – Environmental Compliance examination is 70% of the available points. The percent correct score is calculated for Parts 1 & 2 and then the Part III score is calculated, as a percent of total possible. The 3 scores are then averaged to determine the overall score.

Example: Part 1, 85%, Part 2, 73%, Part 3, 70%. Overall score would be calculated as 76%.

You do not need to pass each part to pass overall. If your overall score does not reach the 70% passing level, but you passed an individual part, you will not be required to retake the part you have passed.
