first of its kind guide features top scholars and educators providing a much needed introduction to social work writing and scholarship. Foregrounding the process of social work writing, the coeditors particularly emphasize how to think about and approach one's subject in a productive manner. The guide begins with an overview of social work writing from the 1880s to the present and then follows with ideal strategies for academic paper writing, social work journal writing and social work research writing. A section on applied professional writing addresses student composition in field education writing for and about clinical practice, the effective communication of policy information to diverse audiences, program and proposal development, advocacy and administrative writing. The concluding section focuses on specific fields of practice including writing on child and family welfare, contemporary social issues, aging and intervention in global contexts. Grounding their essays in systematic observations, induction and deduction and a wealth of real world examples, the contributors describe the conceptualization, development and presentation of social work writing in ways that better secure its power and relevance.

**Film Studies** Glyn Davis, Kay Dickinson, Lisa Patti, Amy Villarejo, 2015-02-20. *Film Studies: A Global Introduction* reroutes film studies from its Euro American focus and canon in order to introduce students to a medium that has always been global but has become differently and insistently so in the digital age. Glyn Davis, Kay Dickinson, Lisa Patti and Amy Villarejo's approach encourages readers to think about film holistically by looking beyond the textual analysis of key films. In contrast, it engages with other vital areas such as financing, labour, marketing, distribution, exhibition, preservation and politics, reflecting contemporary aspects of cinema production and consumption worldwide. Key features of the book include clear definitions of the key terms at the foundation of film studies, coverage of the work of key thinkers explained in their social and historical context, a broad range of relevant case studies that reflect the book's approach to global cinema from Italian white telephone films to Mexican wrestling films, innovative and flexible exercises to help readers enhance their understanding of the histories, theories and examples introduced in each chapter, an extensive Interlude introducing readers to formal analysis through the careful explication and application of key terms, a detailed discussion of strategies for writing about cinema. *Film Studies: A Global Introduction* will appeal to students studying film today and aspiring to work in the industry as well as those eager to understand the world of images and screens in which we all live.
