nature extent patterns and causes of over 40 different forms of crime in each case drawing attention to key contemporary
debates and social and criminal justice responses to them It also challenges many popular and official conceptions of crime
This book is one of the few criminological texts that takes as its starting point a range of specific types of criminal activity It
addresses not only conventional offences such as shoplifting burglary robbery and vehicle crime but many other forms of
criminal behaviour often an amalgamation of different legal offences which attract contemporary media public and policy
concern These include crimes committed not only by individuals but by organised criminal groups corporations and
governments There are chapters on for example gang violence hate crime elder abuse animal abuse cyber crime identity
theft money laundering eco crimes drug trafficking human trafficking genocide and global terrorism Many of these topics
receive surprisingly little attention in the criminological literature The Handbook on Crime will be a unique text of lasting
value to students researchers academics practitioners policy makers journalists and all others involved in understanding and
