Mobile Response Jobst Löffler, Markus Klann, 2009-02-20 Mobile Response 2008 the Second International Workshop on Mobile Information Technology for Emergency Response aimed at a focussed exchange on how mobile information technology can be effectively used to the benefit of emergency response The gap between the great potential benefit that usable mobile IT could yield in the domain of emergency response and the specific design challenges for such technologies in this particularly unforgiving domain was the foundation of our decision to create a venue for researchers and practitioners from different disciplines During this year's workshop the latest approaches and technical solutions in the area of mobile information technology for emergency response planning and execution were presented and demonstrated We invited participation from

research industry and public rescue organizations to enable an in depth discussion of the opportunities and drawbacks of new digital technologies for emergency response The call for papers for the second Mobile Response workshop attracted over 25 submissions from 11 different countries including international submissions from the USA Brazil and Japan An international Program Committee with expert on mobile information technology emergency response and emergency response equipment selected 12 submissions for presentation during the workshop The program was completed by two outstanding keynote presentations and one invited presentation on prevailing topics of high interest to the scientific and practitioner communities

International and Local Actors in Disaster Response Tania N. Haddad, 2022-06-19 International and Local Actors in Disaster Response uses the Beirut explosion in August 2020 to explore disaster prevention and response in developing states Disasters whether man made or natural have always tested governments and their bureaucracies Despite numerous research efforts existing empirical literature does not provide conclusive evidence on how multiple aspects of social infrastructure can simultaneously affect disaster preparedness and recovery and what role the international community can have This book analyzes the role of international and local organizations in responding to the disaster in Beirut and assesses the interorganizational collaboration between the public and private sectors following the explosion The author develops a conceptual framework of government non profit relations in post disaster management and examines the long term disaster response and intervention of both international and local communities in a developing world context This book will be of interest to students scholars and researchers of disaster management and response public administration international relations and the non profit sector
