Intimate Partner Violence A Clinical Training Guide For Mental:

Intimate Partner Violence Carol E. Jordan, Michael T. Nietzel, Robert Walker, TK Logan, 2004-07-23 This training manual synthesizes the clinical and research literature on victims offenders and child witnesses and uses the empirical evidence to provide generalist clinicians with manageable concrete guidance for providing care in these cases Each chapter begins with a summary of the issues to be covered and an outline of the specific topics to be discussed and ends with a recap and list of questions for practitioners in training The authors offer expertise in forensic psychology victimization and substance abuse they discuss the clinical legal and ethical complexities that violence against women brings to the mental health practice environment *Domestic Violence Screening and Intervention in Medical and Mental Healthcare Settings* Mary Beth Phelan, MD, L. Kevin Hamberger, PhD, 2004-10-12 Despite the need and the potential for healthcare providers to play an active role in prevention and intervention into domestic violence there is little evidence that they are doing so in large numbers or systematic ways This book reviews the literature on screening identification intervention and prevention of partner violence across healthcare specialties and disciplines to benefit the development of effective domestic violence prevention programs Primary care psychiatric and mental health care emergency department settings as well as subspecialties such as emergency rooms ophthalmology and infectious disease are considered **Breaking Apart Intimate Partner Violence and Abuse** Shondrah Tarrezz Nash, Lisa Michele Shannon, Monica Himes, Lynn Geurin, 2023-07-21 Breaking Apart Intimate Partner Violence and Abuse provides a thorough examination of intimate partner violence and abuse encompassing the nature influences and impact of its presence in interpersonal relationships By pulling together representative studies and other evidence based analyses by researchers and interventionists this comprehensive overview surveys the prevalence patterns and common risk factors among a number of demographics including women men transpeople partners in opposite and same sex relationships teen dating partners later life partners and abused partners with disabilities The authors also disentangle that is break apart the factors of race class gender sexuality gender expression and culture by exploring their effects on experiences of intimate partner violence and abuse perpetration and victimization Although less scrutinized in current literature on the topic discourse and institutional barriers to abused women s well being and safety are also delved into particularly those exacerbated by rural isolation non national status and theologies The authors supplement their in depth overview by highlighting protective measures and resources throughout identifying treatments and public health approaches to violence and abuse intervention and prevention as well as incorporating discussion exercises and illustrations that extend the book s concepts into real life settings In their exploration of the forms causes prevalence and consequences of intimate partner violence and abuse among different groups the authors address the problem with both nuance and scope Combined with their evidence based recommendations the book offers valuable insight for students researchers and practitioners in the fields of domestic and family abuse and intimate partner violence

Intimate Partner Violence Against Women and Its Implications for Women's Health in Pakistan Rubeena Zakar, 2012 Like other developing countries in Pakistan women are frequently victims of intimate partner violence Studying violence in a conservative patriarchal set up is a challenging task as the issue is denied and usually concealed under the cloak of family privacy Thus far in Pakistan intimate partner violence is not recognized as a public health and developmental issue This study intends to fill this research gap and documents intimate partner violence as a public health issue by investigating its association with women's mental and reproductive health in Pakistan This research is theoretically embedded in the integrated ecological framework introduced by Heise 1998 to explain and explicate the complexity of the phenomenon of intimate partner violence In patriarchal societies girls are usually socialized in such a way that they become submissive and dependent on men In order to ensure women's docility and obedience women are subjected to control discipline and sometimes violent punishment Foucault 1977 The core assumption of this research is that violence or threat of violence damages women's physical mental and reproductive health Arguably violence also constricts women's ability to develop essential capabilities to live an independent and dignified life Nussbaum 2005 Data showed that the acts of violence rendered substantial damage to women's mental and reproductive health It was found that sexual violence was significantly associated with non use of contraceptives and unintended pregnancies which may lead to unsafe and high risk abortions The qualitative data revealed that physicians and other stakeholders e.g religious leaders community leaders lacked competence training and resources to provide comprehensive care to the victims This study demonstrates that without protecting women from violence Pakistan cannot achieve Millennium Development Goals especially reduction in infant and maternal mortality gender equality and wom Psychiatric Mental Health Nursing Patricia G. Responding to Intimate Partner Violence and Sexual Violence Against Women World Health Organization, 2013 A health care provider is likely to be the first professional contact for survivors of intimate partner violence or sexual assault Evidence suggests that women who have been subjected to violence seek health care more often than non abused women even if they do not disclose the associated violence They also identify health care providers as the professionals they would most trust with disclosure of abuse These guidelines are an unprecedented effort to equip healthcare providers with evidence based guidance as to how to respond to intimate partner violence and sexual violence

against women They also provide advice for policy makers encouraging better coordination and funding of services and greater attention to responding to sexual violence and partner violence within training programmes for health care providers The guidelines are based on systematic reviews of the evidence and cover 1 identification and clinical care for intimate partner violence 2 clinical care for sexual assault 3 training relating to intimate partner violence and sexual assault against women 4 policy and programmatic approaches to delivering services 5 mandatory reporting of intimate partner violence The guidelines aim to raise awareness of violence against women among health care providers and policy makers so that they better understand the need for an appropriate health sector response They provide standards that can form the basis for national guidelines and for integrating these issues into health care provider education

Identifying, Treating, and Preventing Childhood Trauma in Rural Communities Baker, Marion, Ford, Jacqueline, Canfield, Brittany, Grabb, Traci, 2016-06-09 While there have been great strides made in the treatment options available to trauma victims there is a noticeable gap in the availability of medical social and psychological options in rural communities As these hurdles gain more recognition especially in regards to traumatized children research efforts have been intensified in an effort to increase the overall awareness of and find solutions to the improper treatment being provided Identifying Treating and Preventing Childhood Trauma in Rural Communities depicts the issues and challenges rural areas face when treating victims of trauma especially children and adolescents Featuring information on language and cultural barriers as well as the lack of resources available within these rustic environments this publication serves as a critical reference for researchers clinicians educators social workers and medical providers
