Instructional Design Bruce R. Ledford, Phillip J. Sleeman, 2001-04-01 The purpose of this book is to provide a superstructure within which one can design effective and efficient instruction a system in which predictable and validatable learning will occur a system in which one will be able to direct the learner s activities toward a mutual goal in an environment of positive relationships The purpose of this chapter is to provide an over view of the field of instructional technology with specific focus on instructional design The overview is eclectic it presents views commonly held by instructional designers that have been synthesized from the research and literature This book differs from most books on instructional design in that it describes a process that is internally consistent that is it embraces a specific approach which makes it possible and easier for the designer to achieve closure on a process Most books on instructional design describe several processes without adequately providing an opportunity for closure As a result many designers go away confused owning bits and pieces of a process that it is impossible or at least difficult to implement in a coherent fashion

The Instructional Design Trainer's Guide Jill Stefaniak, Rebecca Reese, 2022-03-21 The Instructional Design Trainer s Guide provides foundational concepts and actionable strategies for training and mentoring instructional design and educational technology students to be effective across contexts ID faculty are charged with bridging the gap between research and practice preparing graduate students for the real world workforce This book provides trainers and university programs with authentic learning experiences that better articulate the practices of and demands on design and technology professionals in the field Through this enhanced perspective learners will be better positioned to confidently embrace constraints work among changing project expectations interact with multiple stakeholders and convey to employers the skills and competencies gleaned from their formal preparation
