3. Two wires of equal lengths are bent in the form of two loops. One of the loop is square shaped whereas the other loop is circular. These are suspended in a uniform magnetic field and the same current is passed through them. Which loop will experience greater torque? Give reasons?

Ans. since $\tau = NIAB$

Since Area of - circular loops is more Than of a square loop

\Rightarrow Torque experienced by a circular loop is greater.

Politicized Physics in Seventeenth-Century Philosophy Robert J. Roecklein, 2014-02-19 In the origins of Western philosophical thought doctrines of physics intertwined with the debate between political philosophers It is for this reason that Plato devoted his dialogues Theatetus and Parmenides to investigating and meeting the arguments of his principal philosophical adversaries The doctrine of atomism which developed under the influence of Parmenides philosophy is one that Plato refutes directly In the modern era of philosophy and science a revived doctrine of atomism has been treated as apolitical Atomistic postulates lay at the root of the doctrines of Early Modern philosophers and exert a great influence upon cultural and political teachings In order to understand Early Modern Philosophy therefore and especially in order to examine Early Modern political science one must address the atomistic theory of body which lies at the root of Early Modern metaphysics In the metaphysical domain or in the domain of natural

philosophy the Early Modern philosophers radically reduce the role that ordinary opinion may play in political and cultural life The majestic declarations concerning the rights of man and the gospel of utility characteristic of the political domain of Early Modernity therefore conceal a shrunken influence fated for the demos in the new politics In order to take the measure of the new political science it is necessary to take the measure of the revived doctrines of atomism If these doctrines can be disproved by reviving Plato's critique we will be able to take a critical look at the political doctrines that lie upon the foundations of the politicized atomism
