Definitions

Depreciation

Depreciation is the annual deduction allowed to recover the cost or other basis of business or investment property having a useful life substantially beyond the tax year. However, land is not depreciable.

Depreciation starts when you first use the property in your business or for the production of income. It ends when you take the property out of service, deduct all your depreciable cost or other basis, or no longer use the property in your business or for the production of income.

Section 179 Property

Section 179 property is property described in section 1245(a)(3) that you acquired by purchase for use in the active conduct of your trade or business, and is either:

- Tangible property that can be depreciated under the Modified Accelerated Cost Recovery System (MACRS) (see page 4) or

- Off-the-shelf computer software to which the depreciation rules of section 167 apply.

- Section 179 property does **not** include the following:
 - Property held for investment (section 212 property).
 - Property used mainly outside the United States (except for property described in section 1680j(k)(4)).
 - Property used mainly to furnish lodging or in connection with the furnishing of lodging (except as provided in section 50(b)(2)).
 - Property used by a tax-exempt organization (other than a section 521 farmers' cooperative) unless the property is used mainly in a taxable unrelated trade or business.
 - Property used by a governmental unit or foreign government or entity (except for property used under a lease with a term of less than 6 months).
 - Air conditioning or heating units.
- For more details, see section 179(d) and Pub. 946.

Amortization

Amortization is similar to the straight line method of depreciation in that an annual deduction is allowed to recover certain costs over a fixed time period. You can amortize such items as the costs of starting a business, goodwill, and certain other intangibles. See the instructions for Part VI on page 9.

Listed Property

Listed property generally includes:

- Passenger automobiles weighing 6,000 pounds or less.
- Any other property used for transportation if the nature of the property lends itself to personal use, such as motorcycles, pick-up trucks, etc.
- Any property used for entertainment or recreational purposes (such as photographic, phonographic, communication, and video recording equipment).
- Cellular telephones (or other similar telecommunications equipment).
- Computers or peripheral equipment.

Exception. Listed property does **not** include:

1. Photographic, phonographic, communication, or video equipment used exclusively in a taxpayer's trade or business or at the taxpayer's regular business establishment.
2. Any computer or peripheral equipment used exclusively at a regular business establishment and owned or leased by the person operating the establishment, or
