The Silencing Kirsten Powers, 2015-05-11 Lifelong liberal Kirsten Powers blasts the Left's forced march towards conformity in an exposé of the illiberal war on free speech. No longer champions of tolerance and free speech, the illiberal Left now viciously attacks and silences anyone with alternative points of view. Powers asks: What ever happened to free speech in America?

Bloodthirsty Bitches and Pious Pimps of Power Gerry Spence, 2025-09-23 Ann Coulter, Laura Ingraham, Nancy Grace, Bill O'Reilly, Sean Hannity, Pat Robertson. Their faces and voices are ubiquitous; the shrill shrieks and strident bellowings that drown out all debate and set every listener on edge, using God's and Jesus's names to justify oppression and ignorance and spread falsehoods as if they were facts. They occupy the bully pulpit of the new American hate culture: the television and radio programs watched and heard by millions of people that shape the opinions and set the agendas of churches, school boards, political action groups, and ultimately those we have elected to represent all of us. Gerry Spence takes dead aim at the media demagogues who wield their power with such virulent effect. Using the full force of his own rhetorical skill, developed through decades as a legendary defense attorney, Spence exposes the people behind the words and carves their arguments with the rough edge of his tongue. Anyone who has had it up to here will cheer to see these bullies met and conquered on their own turf.

Journalism in the Generation Z Age D. Jasun Carr, Mitchell T. Bard, 2023-12-18. This book examines how Generation Z, defined by their orientation as social media natives, grew up in a media system centered around social media. D. Jasun Carr and Mitchell T. Bard explore how Gen Z consumes news media differently than other cohorts and how this shift in consumption affects both the members of Gen Z, the media, and media scholarship. The authors take a media ecology approach to laying out the new media landscape in which Gen Z was raised, before looking at how this new ecology affects many of the traditional theories and underpinnings of media effects, media psychology, and journalism. Through the use of original experimental research and the compilation of extant theory and survey data, Carr and Bard argue that while members of Gen Z eschew the more traditional structures of the media ecosystem in favor of those that incorporate a social element, they nevertheless behave in many ways similarly to those who came before. Scholars of communication, media studies, social media, and journalism will find this book of particular interest.

Presidential Framing in the 21st Century News Media Jennifer Rose Hopper, 2017-01-20 The Patient Protection and Affordable Care Act came into existence at a time when the president s ability to lead the public was in question political polarization had intensified and the media environment appeared ever more fragmented fast moving and resistant to control Under such circumstances how can contemporary American presidents such as Barack Obama build and maintain support for themselves and their policies particularly as controversies arise Using case studies of major contests over how key elements of the Affordable Care Act would be framed and analysis of how those frames fared in influential and popular U S news sources Hopper examines the conditions under which the president can effectively shape public debates today She argues that despite the difficult political and communications context the president retains substantial advantages in framing major controversial issues for the media and the public These presidential framing advantages are conditional however and Hopper explores the factors that help make presidential frames more or less likely to gain hold in the news today More so than in the past an element of unpredictability in this news

environment means that in pursuing favorable messaging the president and his surrogates may also generate some unintentional consequences in how issues are portrayed to the public Presidential frames can evolve with unfolding events to take on new meanings and applications a process facilitated alternately by supporters opponents and media actors Still media figures and political opponents remain largely reactive to presidential communications even as some seek to publicize and exploit weaknesses in the administration s narratives A close look at these recent cases casts new light on the scholarly debate surrounding the president s ability to persuasively communicate and challenges conventional wisdom that the 21st century media largely present an unmanageable news environment for the White House Presidential Framing in the 21st Century News Media engages with current events in American politics focusing on the Obama Administration and the Affordable Care Act while also reflecting upon the state of the American presidency the news media and the public in ways that have substantial implications for all of these actors not merely in the present but into the future making it a compelling read for scholars of Political Science Media Studies Communication Studies and Public Policy
