Fractions And Open Ended Tasks:

Mine the Gap for Mathematical Understanding, Grades 3-5 John SanGiovanni, 2016-09-16 Being an effective math educator is one part based on the quality of the tasks we give one part how we diagnose what we see and one part what we do with what we find Yet with so many students and big concepts to cover it can be hard to slow down enough to look for those moments when students responses tell us what we need to know about next best steps In this remarkable book John SanGiovanni helps us value our students misconceptions and incomplete understandings as much as their correct ones because it s the gap in their understanding today that holds the secrets to planning tomorrow s best teaching SanGiovanni lays out 180 high quality tasks aligned to the standards and big ideas of Grades 3 5 mathematics including addition and subtraction of multi digit whole numbers multiplication and division of single and multi digit whole numbers foundational fraction concepts foundational decimal concepts and operations with fractions and decimals The tasks are all downloadable so you can use or modify them for instruction and assessment Each big idea offers a starting task followed by what makes it a high quality task what you might anticipate before students work with the task 4 student examples of the completed task showcasing a distinct gap commentary on what precisely counts for mathematical understanding and the next instructional steps commentary on the misconception or incomplete understanding so you learn why the student veered off course three additional tasks aligned to the mathematics topic and ideas about what students might do with these additional tasks It s time to break our habit of rushing into re teaching for correctness and instead get curious about the space between right and wrong answers Mine the Gap for Mathematical Understanding is a book you will return to again and again to get better at selecting tasks that will uncover students reasoning better at discerning the quality and clarity of students understanding and better at planning teaching based on the gaps you see Children's Reasoning While Building Fraction Ideas Carolyn A. Maher, Dina Yankelewitz, 2017-06-10 This book may be used for research graduate and undergraduate teacher education and teacher development It presents an integrated set of studies of a heterogeneously grouped class of twenty one nine year olds engaged in exploring fraction ideas prior to classroom instruction under conditions that supported investigation collaboration and argumentation It demonstrates with text and video narrative how young children can reason about mathematics in surprisingly sophisticated ways when provided the opportunity to do so in the proper classroom environment In this volume fourth grade students reasoning about fraction concepts is described through careful analysis and accompanying video excerpts showcasing the variety and originality of their thinking These children will serve as an inspiration for educators to encourage the development of reasoning and argumentation in their students as part of a mathematics curriculum designed to produce critical thinkers Developing 21st Century Competencies In The Mathematics Classroom: Yearbook 2016, Association Of Mathematics Educators Pee Choon Toh, Berinderjeet Kaur, 2016-05-20 The aim of this book is to contribute towards literature in the field of mathematics education specifically the development of 21st century competencies amongst

learners of mathematics The book comprising fourteen chapters written by renowned researchers in mathematics education provides readers with approaches and applicable classroom strategies to foster skills and dispositions that will enable learners to thrive in the fast changing and complex world that we live in today The chapters in the book can be classified into three broad themes The first is an examination of what is meant by 21st century competencies and how they can be developed within the context of the mathematics curriculum The second is an in depth discussion of evidence based practices aimed at fostering specific competencies like metacognition and reflective thinking critical thinking and communication skills The last and third theme is about teaching approaches that are likely to feature increasingly in the 21st century classroom for example flipped learning or the use of comics and storytelling

Open-ended Maths Tasks Helen Macpherson, 1993 A teacher's resource book for junior and middle primary teachers designed for active learning through enjoyable participation Contains over 300 student oriented tasks in number space and measurement which allow for a variety of student abilities Includes an assessment and evaluation section and an index

Decimals and Fractions Cynthia Mitchell, 1998-04 Ready to use activities games and reproducibles that will make teaching and learning about fractions and decimals fun for everyone Students can visit the Mysterious Fraction Zone to learn about equivalent fractions play Shout It Out to practice adding and subtracting fractions and review place value by solving a puzzle Packed with creative and fun teaching ideas plus assessment tips Geared to the NCTM Standards For use with Grades 4-8

Using Rubrics to Assess Open-ended Maths Tasks Pat Lilburn, Irene Sawczak, 2013 Combining the knowledge of authors Pat Lilburn and Irene Sawczak both with many years experience as teachers this book provides teachers with thirty six open ended number tasks and related rubrics aimed at primary year levels

Mine the Gap for Mathematical Understanding, Grades 6-8 John SanGiovanni, Jennifer Rose Novak, 2017-09-12 Being an effective math educator is one part based on the quality of the tasks we give one part how we diagnose what we see and one part what we do with what we find Yet with so many students and big concepts to cover it can be hard to slow down enough to look for those moments when students responses tell us what we need to know about next best steps In this remarkable book John SanGiovanni and Jennifer Rose Novak help us value our students misconceptions and incomplete understandings as much as their correct ones because it's the gap in their understanding today that holds the secrets to planning tomorrow's best teaching The authors lay out 180 high quality tasks aligned to the standards and big ideas of Grades 6-8 mathematics including number systems integers ratio and proportion equations and expressions geometry and statistics and probability The tasks are all downloadable so you can use or modify them for instruction and assessment Each big idea offers a starting task followed by what makes it a high quality task what you might anticipate before students work with the task four student examples of the completed task showcasing a distinct gap commentary on what precisely counts for mathematical understanding and the next instructional steps commentary on the misconception or incomplete understanding so you learn why the student veered off course three additional tasks aligned to the mathematics

topic and ideas about what students might do with these additional tasks It s time to break our habit of rushing into re teaching for correctness and instead get curious about the space between right and wrong answers Mine the Gap for Mathematical Understanding is a book you will return to again and again to get better at selecting tasks that will uncover students reasoning better at discerning the quality and clarity of students understanding and better at planning teaching based on the gaps you see

My Kids Can't Write, K-5 Paul Emerich France,2025-03-04 Practical and sustainable writing practice in every classroom Teachers consistently grapple with how to make writing fun and engaging While long form writing has its value research shows that balancing genre based units with frequent on demand writing tasks to help children communicate effectively and reflect on their learning might be the key to success My Kids Can t Write provides sustainable and scalable practices for writing across all content areas and shows teachers how to develop structures and rituals for sustaining a journal based approach to instruction and assessment in classrooms Inside you ll find Scaffolds and strategies that systematically support students in strengthening their skills while simultaneously writing to learn Ways to embed foundational skills like spelling and grammar to help students become stronger communicators The purpose of cognitive writing and how to properly set up journaling within the classroom Numerous student journal samples and informative vignettes Now is the time to embed writing into all subjects and emphasize accurately interpreting information effectively communicating needs and making learning visible to students and educators alike
