Resistance in Everyday Life Nandita Chaudhary, Pernille Hviid, Giuseppina Marsico, Jakob Waag Villadsen, 2017-07-10
This book is about resistance in everyday life illustrated through empirical contexts from different parts of the world. Resistance is a widespread phenomenon in biological, social, and psychological domains of human cultural development. Yet it is not well articulated in the academic literature and when it is, resistance is most often considered counterproductive. Simple evaluations of resistance as positive or negative are avoided in this volume; instead, it is conceptualised as a vital process for human development and well-being. While resistance is usually treated as an extraordinary occurrence, the focus here is on everyday resistance as an intentional process where new meaning constructions emerge in thinking, feeling, acting, or simply living with others. Resistance is thus conceived as a meaning-making activity that operates at the intersection of personal and collective systems. The contributors deal with strategies for handling dissent by individuals or groups, specifically dissent through resistance. Resistance can be a location of intense personal, interpersonal, and cultural negotiation, and that is the primary reason for interest in this phenomenon. Ordinary life events contain innumerable instances of agency and resistance. This volume discusses their manifestations and it is therefore of interest for academics and researchers of cultural psychology, cultural studies, anthropology, sociology, and human development.

Psychotherapeutic Support for Family Caregivers of People With Dementia Gabriele Wilz, 2023-12-11
Learn how family caregivers of people with dementia can be supported by psychotherapy. Provides step-by-step guidance for face-to-face or remote therapy. Illustrated with therapeutic dialogs from real cases. Includes downloadable intervention handouts. This handbook addresses the extremely challenging situation that family caregivers of people with dementia face and is informed by the use of evidence-based psychotherapeutic strategies to support them. The book guides readers step-by-step through effective therapeutic strategies, mainly based on cognitive-behavioral therapy, and illustrated with excerpts of dialogs between therapists and family caregivers from real sessions. Different modules address topics such as dealing with challenging behavior, self-care, perfectionism, and guilt, as well as changes in the relationship with the ill person, barriers to seeking social and professional support, stress management, and emotion regulation, accepting one's own limits, and dealing with institutionalization. These modules can be put together to meet different individuals' needs. Particular emphasis is placed on creating a positive therapeutic alliance, resource activation, and helping caregivers develop the motivation for change. Finally, multiple handouts that can be used in clinical practice are available for download. The intervention is suitable for various settings, including face-to-face therapy or remote forms such as telephone or online therapy. This manual is ideal for clinical psychologists, gerontologists, psychotherapists, social workers, and counsellors working with people with dementia and their families.
