Further Daily Deliberations English Edition:

Deliberation Day Bruce Ackerman, James S. Fishkin, 2008-10-01 div Bruce Ackerman and James Fishkin argue that Americans can revitalize their democracy and break the cycle of cynical media manipulation that is crippling public life They propose a new national holiday Deliberation Day for each presidential election year On this day people throughout the country will meet in public spaces and engage in structured debates about issues that divide the candidates in the upcoming presidential election Deliberation Day is a bold new proposal but it builds on a host of smaller experiments Over the past decade Fishkin has initiated Deliberative Polling events in the United States and elsewhere that bring random and representative samples of voters together for discussion of key political issues In these events participants greatly increase their understanding of the issues and often change their minds on the best course of action Deliberation Day is not merely a novel idea but a feasible reform Ackerman and Fishkin consider the economic organizational and political questions raised by their proposal and explore its relationship to the larger ideals of liberal democracy DIV *The Future of Self-Governing, Thriving Democracies* Brigitte Geissel, 2022-11-15 This book offers a new approach for the future of democracy by advocating to give citizens the power to deliberate and to decide how to govern themselves Innovatively building on and integrating components of representative deliberative and participatory theories of democracy with empirical findings the book provides practices and procedures that support communities of all sizes to develop their own visions of democracy It revitalizes and reinfuses the democratic spirit going back to the roots of democracy as an endeavor by with and for the people and should inspire us in our search for the democracy we want to live in This book is of key interest to scholars and students in democracy democratic innovations deliberation civic education and governance and further for policy makers civil society groups and activists It encourages us to reshape democracy based on citizens perspectives aspirations and preferences

Deliberation and Development Patrick Heller, Vijayendra Rao, 2015-07-13 Deliberation is the process by which a group of people each with equal voice can via a process of discussion and debate reach an agreement Deliberation and Development attempts to do two things First it rethinks the role of deliberation in development and shows that it has potential well beyond a narrow focus on participatory projects Deliberation if properly instituted has the potential to have a transformative effect on many if not all aspects of development and especially in addressing problems of collective action coordination and entrenched inequality This has broad implications both at the global and local level Second the book demonstrates that taking deliberation seriously calls for a different approach to both research and policy design and requires a much greater emphasis on the processes by which decisions are made rather than an exclusive focus on the outcomes Deliberation and Development contributes to a broader literature to understand the role of communicative processes in development

Dialogue and Deliberation Josina M. Makau, Debian L. Marty, 2013-03-19 Across our differences people everywhere wish to be heard to be known and to be understood When these needs are met individuals have the potential to flourish and

communities can work together in common cause Yet in the current argument culture the power of communication to meet these needs remains largely untapped and the ability to resolve shared problems is compromised This book explores the roots of this communication crisis and offers a realistic means to reconnect to build community and to make just and wise decisions together **European Witch Trials (RLE Witchcraft)** Richard Kieckhefer, 2012-04-27 In popular tradition

witches were either practitioners of magic or people who were objectionable in some way but for early European courts witches were heretics and worshippers of the Devil This study concentrates on the period between 1300 and 1500 when ideas about witchcraft were being formed and witch hunting was gathering momentum It is concerned with distinguishing between the popular and learned ideas of witchcraft The author has developed his own methodology for distinguishing popular from learned concepts which provides adequate substantiation for the acceptance of some documents and the rejection of others This distinction is followed by an analysis of the contents of folk tradition regarding witchcraft the most basic feature of which is its emphasis on sorcery including bodily harm love magic and weather magic rather than diabolism The author then shows how and why learned traditions became superimposed on popular notions how people taken to court for sorcery were eventually convicted on the further charge of devil worship The book ends with a description of the social context of witch accusations and witch trials Public Deliberation on Climate Change Lorelei L. Hanson, 2018-02-05 There

exists in both academic and political circles a growing interest in public deliberation as an alternative to the sometimes adversarial and polarizing public engagement activities that result in the pitting of experts against lay people Proponents of public deliberation claim that a more deliberative process can engage a diversity of participants in a more guided process that better balances expert knowledge and citizen inclusion Such an approach holds particular promise where citizens and governments engage in discussions of the most complex and intractable issues like climate change Given the host of challenges climate governance presents and the global consequences of our response to them the experience and knowledge shared by Hanson and the contributors to Public Deliberation on Climate Change provide an important framework for advancing public conversations and processes on this and other wicked problems The lessons contained in the volume were gained as a result of a five year multidisciplinary community university research project called Alberta Climate Dialogue ABCD which drew together scholars practitioners citizens civil society members and government officials from across Alberta at four public deliberations By highlighting the value tensions and trade offs and examining the impact that the design of the deliberations has on policy and the creation of conditions that encourage exchange the contributors aim to build capacity within our institutions and society to find new ways to discuss and solve complex problems **Decision and Deliberation**

David Clune, Gareth Griffith, 2006 This book is an authoritative history of the NSW Parliament from its establishment in 1856 to 2003 It gives comprehensive accounts of both the Legislative Assembly and the Legislative Council including analyses of their performance based on contrasting liberal and executive models of Parliament The history of the Parliament is

contextualised by the changing political background in which it operated over 150 years It is enlivened by portraits of colourful Members such as WP Paddy Crick drunken brawler and master of Parliamentary procedure and accounts of incidents such as George Fuller s seven hour Government and the siege by trade unionists in 2003 On a broader level the book is a dissertation on the nature of State politics and Parliaments and on the theoretical study of parliamentary institutions A NSW Sesquicentenary of Responsible Government publication

Deliberation, Democracy, and the Media Simone Chambers, Anne N. Costain, 2000 Interdisciplinary discussion of the ways in which the media is and can be used in the service of deliberative equality within the public sphere and of the ways in which the media can function to both facilitate and inhibit deliberative democracy back cover

The Future of Christian Realism Dallas Gingles, Joshua Mauldin, Rebekah L. Miles, 2023-04-15 In the world s most developed democracies anxiety about the future of democracy is palpable The tension between moral aspiration and moral despair has reached a point of crisis Christian realism arose during a similar time of crisis when Reinhold Niebuhr used the insights of the Christian tradition to interpret the clash between democracy and totalitarianism Beginning with Robin Lovin s account of Christian realism as a nuanced blend of theological moral and political realisms The Future of Christian Realism addresses fundamental topics in theology ethics and politics The contributors come from different traditions span five continents and together present a case for the continuing relevance of Christian realism By paying close attention to many of the most pressing moral challenges facing societies today the authors illustrate and evaluate the enduring relevance of Christian realism

Bias alleviation and value activation in citizens' juries: Enhancing deliberation and civic engagement in sustainable food systems Burger, Maximilian Nicolaus, Nilgen, Marco, Vollan, Björn, 2025-02-24 Citizens Juries CJs are increasingly implemented as a means to engage citizens in deliberation on complex policy challenges yet their effectiveness can be undermined by cognitive biases and limited value driven reasoning This study evaluates the impact of bias alleviation and value activation exercises on deliberative quality and civic engagement in four CJs conducted in Bogotá Colombia Two juries incorporated these exercises as treatment interventions and two served as controls with extended deliberation time Results reveal that deliberation itself modestly reduced confirmation bias compared to non participants while the structured interventions enhanced participants awareness of biases and value based reasoning However the interventions did not significantly reduce the occurrence of biases and led to a perceived trade off with deliberation time Participation in CJs also showed improved trust in science and political self efficacy demonstrating their potential to foster civic engagement These findings highlight the nuanced benefits and limitations of integrating debiasing interventions into mini publics to enhance deliberative quality and equity in policymaking

Radio, Public Life and Citizen Deliberation in South Africa Sarah Chiumbu, Gilbert Motsaathebe, 2021-05-24 This book critically analyses the important role of radio in public life in post apartheid South Africa As the most widespread and popular form of communication in the country radio occupies an essential space in the deliberation and the construction

of public opinion in South Africa From just a few state controlled stations during the apartheid era there are now more than 100 radio stations reaching vast swathes of the population and providing an important space for citizens to air their views and take part in significant socio economic and political issues of the country The various contributors to this book demonstrate that whilst print and television media often serve elite interests and audiences the low cost and flexibility of radio has helped it to create a common space for national dialogue and deliberation The book also investigates the ways in which digital technologies have enhanced the consumption of radio and produced a sense of imagined community for citizens including those in marginalised communities and rural areas This book will be of interest to researchers with an interest in media politics and culture in South Africa specifically as well as those with an interest in broadcast media more generally

Deliberation, Participation and Democracy Shawn W. Rosenberg, 2007-11-09 Political participation is falling and citizen alienation and cynicism is increasing This volume brings together the first work of this kind by leading scholars in the US and Europe to consider the issue Four of the leading philosophers of deliberative democracy contribute their commentaries on the groundbreaking empirical research *Deliberation, Rhetoric, and Emotion in the Discourse on Climate Change in the European Parliament* Vebjørn Roald, Linda Sangolt, 2012 **The Future of Investment Arbitration** Catherine A.

Rogers, Roger P. Alford, 2009 Investment arbitration is at the cutting edge of international law and dispute resolution and is predicted to be a major factor in the development of the global economic system in years to come This one volume monograph contains contributions from leading experts on a wide range of topics of both theoretical importance and practical implication that will affect the future of investment arbitration The highly innovative chapters combine to form a constructive and valuable discussion for all in the arbitration field The contributors chosen to represent the full spectrum of perspectives are leading arbitration experts from all over the world including ICSID insiders US government officials UNCTAD research personnel seasoned investment arbitrators and counsel and renowned legal scholars The book is divided into three themes with the first centering on the adequacy of UNCITRAL and ICSID arbitration rules with particular attention to recent and proposed changes The second theme focuses on the future of bilateral investment treaties discussing trends in the interpretation of treaty provisions and the debate concerning the efficacy of the treaties in benefiting developing countries The third theme revolves around the public function of investment arbitration decisions including the use of arbitration to resolve disputes between sovereigns and the arbitrators role as a guardian of international public policy The Future of Investment Arbitration is unique in its outstanding range of topics and the expertise of the contributors It previews and guides future directions in the field as well as discussing the larger policy implications of specific rules It includes cutting edge analysis of empirical research regarding BITS that is essential to evaluating many assumptions about investment law and arbitration Finally the book takes a broad perspective examining the rules discussed within the larger structural context of investment arbitration and drawing investment arbitration into the wider setting of international law

and corporate governance **North Carolina Reports** North Carolina. Supreme Court, 1995 Cases argued and determined in the Supreme Court of North Carolina **Daily Intelligence** International Labour Office, International Labour Organization, 1921 Argumentation in Everyday Life Jeffrey P. Mehlretter Drury, 2019-01-21 Good coverage of concepts with understandable explanations of theory Very user friendly with exercises to use in and out of class Connects well with other communication classes through the application of other communication concepts to argumentation Christopher Leland Azusa Pacific University Argumentation in Everyday Life provides students with the tools they need to argue effectively in the classroom and beyond Jeffrey P Mehlretter Drury offers rich coverage of theory while balancing everyday applicability allowing students to use their skills soundly Drury introduces the fundamentals of constructing and refuting arguments using the Toulmin model and ARG conditions Acceptability Relevance and Grounds Numerous real world examples are connected to the theories of rhetoric and argumentation discussed enabling students to practice and apply the content in personal civic and professional contexts as well as traditional academic debates Encouraging self reflection this book empowers students to find their voice and create positive change through argumentation in everyday life Unique resources to help students navigate this complex terrain of argumentation The Debate Situation offers students a birds eye view of any given debate or exchange of arguments between two or more people organized around three necessary components arguments issues and the proposition The visual model of the debate situation illustrates how these features work together in guiding a debate and it lays the groundwork for understanding and generating arguments Easy to Use Standards for Evaluating Arguments combine a prominent argument model named after logician Stephen Toulmin with a standards based approach the ARG conditions to test of quality of an argument The ARG conditions are three questions an advocate should ask of an argument in determining whether or not it is rationally persuasive These questions are best served by research but don't necessarily require it and thus they provide a useful posture for critically assessing the arguments you encounter Multiple Everyday Life examples with an emphasis on context help students to connect the lessons more fully to their everyday life and encourages them to grapple explicitly with dilemmas arising in different contexts Find Your Voice Prompts focus on choice empowerment to offer strategies for students to choose which arguments to address and how to address them empowering students to use argumentation to find their voice Build Your Skill Prompts use objective applications to test how well students have learned the information They offer a chance to apply the material to additional examples that students can check against the answers in Appendix II Two application exercises at the end of each chapter encourage students to think critically about the content discuss their thoughts with their peers and apply the material to everyday situations **Democracy When the People Are Thinking** James S. Fishkin, 2018-06-27 Democracy requires a connection to the will of the people What does that mean in a world of fake news relentless advocacy dialogue mostly among the like minded and massive spending to manipulate public opinion What kind of opinion can the public have under such conditions What would democracy be like if the people were

really thinking in depth about the policies they must live with If they really deliberated with good information about their political choices This book argues that deliberative democracy is not utopian It is a practical solution to many of democracy's ills It can supplement existing institutions with practical reforms It can apply at all levels of government and for many different kinds of policy choices This volume speaks to a recurring dilemma listen to the people and get the angry voices of populism or rely on widely distrusted elites and get policies that seem out of touch with the public's concerns Instead there are methods for getting a representative and thoughtful public voice that is really worth listening to Democracy is under siege in most countries where democratic institutions have low approval and face a resurgent threat from authoritarian regimes Deliberative democracy can provide an antidote and can reinvigorate our democratic politics Democracy When the People Are Thinking draws on the author's research with many collaborators on Deliberative Polling a process conducted in 27 countries on six continents It contributes both to political theory and to the empirical study of public opinion and participation It should interest anyone concerned about the future of democracy and how it can be revitalized

Gender, deliberation, and natural resource governance: Experimental evidence from Malawi Clayton, Amanda, Dulani, Boniface, Kosec, Katrina, Robinson, Amanda Lea, 2024-01-24 Initiatives to combat climate change often strive to include women's voices but there is limited evidence on how this feature influences program design or its benefits for women We examine the causal effect of women's representation in climate related deliberations using the case of community managed forests in rural Malawi We run a lab in the field experiment that randomly varies the gender composition of six member groups asked to privately vote deliberate then privately vote again on their preferred policy to combat local over harvesting We find that any given woman has relatively more influence in group deliberations when women make up a larger share of the group This result cannot be explained by changes in participants' talk time Rather women's presence changes the content of deliberations towards topics on which women tend to have greater expertise Our work suggests that including women in decision making can shift deliberative processes in ways that amplify women's voices

Argumentation in Political Deliberation Marcin Lewiński, Dima Mohammed, 2015-07-15 The goal of this volume is to further the examination of the role shape and quality of argumentation in political deliberation The chapters collected in the volume employ the concepts and methods developed within argumentation theory to investigate the specifics of political discourse across various deliberative arenas from debates in the European Parliament consensus conferences and public hearings in France discussions in Dutch online forums to exchanges of comments in online versions of British newspapers In this way the studies reveal the inner workings of argumentative interactions that constitute deliberative discourse and thus importantly contribute to the study of public deliberation This should be of interest to the students of argumentation deliberation and political discourse In addition the volume problematizes and theorizes some vital issues related to the study of situated argumentation thus advancing the study of argumentation in context Originally published in Journal of Argumentation in Context Vol 2 1 2013
