curious about the way people learn and the past several decades have seen an explosion of research that has important  
implications for individual learning schooling workforce training and policy In 2000 How People Learn Brain Mind  
Experience and School Expanded Edition was published and its influence has been wide and deep The report summarized  
insights on the nature of learning in school aged children described principles for the design of effective learning  
environments and provided examples of how that could be implemented in the classroom Since then researchers have  
continued to investigate the nature of learning and have generated new findings related to the neurological processes  
involved in learning individual and cultural variability related to learning and educational technologies In addition to  
expanding scientific understanding of the mechanisms of learning and how the brain adapts throughout the lifespan there  
have been important discoveries about influences on learning particularly sociocultural factors and the structure of learning  
environments How People Learn II Learners Contexts and Cultures provides a much needed update incorporating insights  
gained from this research over the past decade The book expands on the foundation laid out in the 2000 report and takes an  
in depth look at the constellation of influences that affect individual learning How People Learn II will become an  
indispensable resource to understand learning throughout the lifespan for educators of students and adults
