and about the implications of the vertical dimension of reconciliation Many would agree that the vertical and horizontal dimensions of reconciliation should not be separated It is however still necessary to examine further For instance what does the inseparableness of the two dimensions actually mean in theory and practice How does the vertical dimension of reconciliation become the source and foundation of the horizontal dimension How should the church maintain its theology of reconciliation which includes both dimensions All these questions point to an underlying question what is the relationship between the vertical and horizontal dimensions of reconciliation This book explores this question interacting with the four thinkers and practitioners of reconciliation Karl Barth Miroslav Volf Son Yang Won and Desmond Tutu and assessing the theology of a leading theologian in the discourse of mission as reconciliation Robert Schreiter Based on the discussions it presents a proposal for a more wholesome and robust understanding of reconciliation for the discourse in mission studies which can be applied to any broken context including the Korean peninsula
