scholarship cultural and theological hermeneutics pedagogy and community knowledge democracy and citizenship Yet the three major disciplines or discourses covered in this work include multicultural education theology and hermeneutics through the lens of human flourishing and the concept of the good life From this angle this project is written from three different methods and approaches that intersect with each other a theology of contextualization a hermeneutics of interculturality and a pedagogy of cultural literacy and transformative community knowledge The book advances the idea that theological education should be the starting point to foster candid conversations about the importance of democracy and human rights civic engagement and the political life inclusion and diversity and pluralism and difference in our multicultural society The book uses the tools of multicultural education and cultural knowledge to enhance democracy and promote fundamental human virtues that would sustain the good life and human flourishing in the world in the Aristotelian sense and in the Socratic idea of local and world citizenship Finally this text offers an alternative vision to contemporary theological education to deconstruct the white male and Eurocentric narratives of theological education and Christian scholarship

Transforming Ethos Rosanne Carlo, 2020-09-01 In *Transforming Ethos* Rosanne Carlo synthesizes philosophy rhetorical theory and composition theory to clarify the role of ethos and its potential for identification and pedagogy for writing studies Carlo renews focus on the ethos appeal and highlights its connection to materiality and place as a powerful instrument for writing and its teaching one that insists on the relational and multimodal aspects of writing and makes prominent its inherent ethical considerations and possibilities Through case studies of professional and student writings as well as narrative reflections *Transforming Ethos* imagines the ethos appeal as not only connected to style and voice but also a process of habituation related to practices of everyday interaction in places and with things Carlo addresses how ethos aids in creating identification transcending divisions between the self and other She shows that when writers tell their experiences they create and reveal the ethos appeal and this type of narrative multimodal writing is central to scholarship in rhetoric and composition as well as the teaching of writing In addition Carlo considers how composition is becoming compromised by professionalization particularly through the idea of transfer which is overtaking the critical work of self development with others that a writing classroom should encourage in college students *Transforming Ethos* cements ethos as an essential term for the modern practice and teaching of rhetoric and places it at the heart of writing studies This book will be significant for students and scholars in rhetoric and composition as well as those interested in higher education more broadly
