*Secret Sauce: How to Produce Music from Home* Tay Robinson, The power is in our hands. There has never been a greater time to be a creator especially a creator of music. Innovations in technology have made the tools to create easier to use and more accessible than ever before. With a little ambition courage and patience anyone can become a creator. In the past music production was an expensive passion. Studio time mixing and mastering fees and expensive producers can add up making it pretty much unsustainable for anyone who isn't rolling in dough. But the secret that the music industry doesn't want you to know is that all of that is unnecessary. You can make music identical to the songs you hear on the billboard from the comfort of your home and at a fraction of the price. Sure an expensive studio session can set the vibe and get the creative juices flowing but really all you need to create great music is the formula to understand the music creation process. That formula is the Secret Sauce. This copy of the book features a free album created using the methods in this book.
