<p>(What are you analyzing?)</p> <p style="text-align: center;"><i>Simile</i></p> <p>“The snow was like a carpet, very gentle, very warm” (83).</p>	83	<p><i>I can picture the men standing in the concentration camp, watching the snow blanket the ground. It is silent there. The snow-covered ground is smooth and soft. Wiesel describes the snow as being “gentle” and “warm.” This comparison is not what one would expect. Standing barefoot in the snow would be very painful. The cold would cut deep into one’s feet. So why does he say it is warm? Maybe his feet are frozen, numb to the pain. Perhaps the snow provides insulation from night’s bitter cold. This comparison creates a sense of peace, a moment without terror and fear. It is as if he is home again, safe and warm. 111 words</i></p>
<p>(What are you analyzing?)</p> <p style="text-align: center;"><i>Personification/ Internal Conflict</i></p> <p>“Death wrapped itself around me till I was stifled. It stuck to me. I felt that I could touch it. The idea of dying, of no longer being, began to fascinate me. Not to exist any longer” (82).</p>	82	<p><i>This is a sad moment for Elie. He has fought to survive, but cannot fight any longer. I can’t imagine being fourteen and wanting to die. I can’t imagine being fourteen and losing my family, my dignity, my soul. What a tragedy. In this passage, Wiesel personifies death to show the control it has over those who are suffering in the camps. In this case, Death silences Elie, overpowering his will and subduing his hope of survival. Elie is conflicted. He wants to survive. He wants to take care of his father. But he doesn’t know how much more he can take. This is important because we see that Elie has reached a breaking point. Death has come for him so many times but has failed. This time, however, Elie is too tired to run, too tired to fight. He has had enough. Death is offering a gift—an escape from this hellish existence. 153 words</i></p>

Teaching Accelerated and Corequisite Composition David Starkey, 2023-11-21

Teaching Accelerated and Corequisite Composition is the first book to compile on-the-ground advice and teaching strategies specifically curated for accelerated and corequisite writing courses. Trailblazers in the field from colleges across the United States who developed a foundation for corequisites by facilitating equity and accessibility for marginalized students speak to a range of topics and demographics, offering support for instructors and practical advice for improving student success. The book primarily explores accelerated composition through the lens of two-year colleges to answer a central question in the field: to what extent do educators need to alter two-year college curricular design? The contributors also delve into assessment, a crucial process for instructors and their students transitioning to accelerated learning, the key role that reading plays in the writing process, and noncognitive learning, an area of study that has been associated with accelerated learning since its inception. Together, these thirteen chapters provide instructors with a strategic approach to teaching accelerated and corequisite composition. Teaching Accelerated and Corequisite Composition points toward a new way of approaching first-year composition: a method of instruction that fosters the growth and success of writers who were once considered underprepared for college writing and are now achieving unprecedented success.

The Dimensions of Time and the Challenge of School Reform Patricia C. Gandara,2000-01-01 As the education reform movement matures into its second decade it is clear that many promising efforts have fallen short in their attempts to create real school change One reason for this is that the process of school reform is much more complex than most reformers realized or were willing to acknowledge The Dimensions of Time and the Challenge of School Reform points to another problem the problem of time and its role in both the success and failure of school reform efforts The importance of understanding the role that time plays in both learning and instruction and finding ways to provide time for teachers grappling with change and students learning to accommodate a new language and culture are important themes in this book This book is directed to policymakers and practitioners as well as to academics in that it combines theory with the real world experiences of many who have been active in the school reform movement and who have learned through trial and error how to think about time in innovative ways Back cover
