History Come Fly with Us is the story of an elite group of space travelers who flew as members of many space shuttle crews
from pre Challenger days to Columbia in 2003 Not part of the regular NASA astronaut corps these professionals known as
payload specialists came from a wide variety of backgrounds and were chosen for an equally wide variety of scientific
political and national security reasons Melvin Croft and John Youskauskas focus on this special fraternity of spacefarers and
their individual reflections on living and working in space Relatively unknown to the public and often flying only single
missions these payload specialists give the reader an unusual perspective on the experience of human spaceflight The
authors also bring to light NASA's struggle to integrate the wide ranging personalities and professions of these men and
women into the professional astronaut ranks While Come Fly with Us relates the experiences of the payload specialists up to
and including the Challenger tragedy the authors also detail the later high profile flights of a select few including Barbara
