The Commercial Motor ,1929 **Cook's continental time tables, tourist's handbook and steamship tables, a simple guide to all the principal lines of railway, lake, river and canal steamers and diligences in Europe** ,1905
Commercial Transport ,1956-07 **United Counties Buses** David Beddall,2020-08-19 An informative history covering nearly a century of this British bus company packed with facts and photos United Counties Buses A Fleet History begins by taking a brief look at the expansion of the United Counties Omnibus Company since its formation in September 1921 through its demise in October 2014 The company acquired over fifty independent operators between 1922 and 1938 giving it prominence in Northamptonshire and surrounding areas May 1952 saw the fleet double in size with the acquisition of the Midland area of the Eastern National Omnibus Company encompassing Bedfordshire north Buckinghamshire and north Hertfordshire The National Bus Company split United Counties into three operating companies in 1986 United Counties Luton District and MK Citybus halving the size of the fleet After being acquired by the Stagecoach Group in 1987 the company was largely left untouched The main focus of the book looks at the vehicles operated by the company covering the numerous types operated by United Counties themselves The various liveries both fleet and advertising liveries are also listed **Farm and Home News** ,1974-12 **Electric Railway and Tramway Journal** ,1956-07 Includes separately pagged section Passenger transport week Federal Register ,1985-06-03 **Textile World** ,1921 **Tramway and Railway World** ,1911 Voices at Work Alan Bogg,Tonia Novitz,2014-04-03 This edited collection is the culmination of a comparative project on Voices at Work funded by the Leverhulme Trust 2010 2013 The book aims to shed light on the problematic concept of worker voice by tracking its evolution and its complex interactions with various forms of law Contributors to the volume identify the scope for continuity of legal approaches to voice and the potential for change in a sample of industrialised English speaking common law countries namely Australia Canada New Zealand UK and USA These countries facing broadly similar regulatory dilemmas have often sought to borrow and adapt certain legal mechanisms from one another The variance in the outcomes of any attempts at borrowing seems to demonstrate that despite apparent membership of a common law family there are significant differences between industrial systems and constitutional traditions thereby casting doubt on the notion that there are definitive legal solutions which can be applied through transplantation Instead it seems worth studying the diverse possibilities for worker voice offered in divergent contexts not only through traditional forms of labour law but also such disciplines as competition law human rights law international law and public law In this way the comparative study highlights a rich multiplicity of institutions and locations of worker voice configured in a variety of ways across the English speaking common law world This book comprises contributions from many leading scholars of labour law politics and industrial relations drawn from across the jurisdictions and is therefore an exceedingly comprehensive comparative study It is addressed to academics policymakers legal practitioners legislative

drafters trade unions and interest groups alike Additionally while offering a critique of existing laws this book proposes alternative legal tools to promote engagement with a multitude of voices at work and therefore foster the effective deployment of law in industrial relations
