**Jurisdiction and Cross-Border Collective Redress** Alexia Pato, 2019-07-11 In recent decades the rise in cross border law violations has harmed numerous victims around the globe The damages are often dispersed and low level As a result the private enforcement gap has deepened and collective redress represents an interesting procedural instrument that is able to provide effective access to justice This book analyses thoroughly the dominant collective redress models adopted in the EU Data from 13 Member States has been catalogued and categorised The research mainly focuses on the consumer law field but frequent references to financial and data protection related cases are made The dominant collective redress models are then studied from a private international law perspective In particular the book highlights the current mismatch between collective redress on the one hand and rules on international jurisdiction on the other Additionally it notes that barriers to cross border litigation remain significant for victims and their representatives The unprecedented empirical study included in this book confirms that statement Observing that EU measures have not satisfactorily lowered those barriers the author proposes the creation of a new head of jurisdiction for cases of international collective redress This book will be of interest to private international law scholars researchers students legal practitioners judges and policy makers It is a reference point for those with an interest in cross border collective redress in particular and private international law in general
