Cleaning the retaining wedge

Clean any pitch or gum from the retaining wedge using a brass-bristled brush dipped in solvent (*right, top*). If the face of the retaining wedge that butts against the knife is pitted or rough, you may have trouble setting the knife height when reinstalling the knife. Use the brush to clean the slot in the cutterhead that houses the retaining wedge and knife (*right, bottom*).

dynasties of the Islamic Middle East produced few documents and preserved even fewer Beginning with government

documents before the Fatimids and paper's westward spread across Asia Rustow reveals a millennial tradition of state record keeping whose very continuities suggest the strength of Middle Eastern institutions not their weakness Tracing the complex routes by which Arabic documents made their way from Fatimid palace officials to Jewish scribes the book provides a rare window onto a robust culture of documentation and archiving not only comparable to that of medieval Europe but in many cases surpassing it Above all Rustow argues that the problem of archives in the medieval Middle East lies not with the region's administrative culture but with our failure to understand preindustrial documentary ecology Illustrated with stunning examples from the Cairo Geniza this compelling book advances our understanding of documents as physical artifacts showing how the records of the Fatimid caliphate once recovered deciphered and studied can help change our thinking about the medieval Islamic world and about premodern polities more broadly *The Civil Service Manual* George Edward Skerry, 1904 VCR Troubleshooting and Repair Gregory Capelo, Robert C.
