Fox Report With Shepard Smith:

Dark Genius Kerwin C. Swint, 2008 Swint political science Kennesaw State U provides a portrait of Roger Ailes the formidable president of Fox News The book part media criticism and part history follows Ailes from his first political campaign with Richard Nixon on 1968 to his ascension to the leadership of the Fox News Channel This account of the conservative media mogul displays his tenacity his style over substance approach his ruthless Machiavellian way of conducting business and his imprint and influence on American politics and communications *The Obama Effect* Seth K. Goldman, Diana C. Mutz, 2014-05-31 Barack Obama s historic 2008 campaign exposed many white Americans more than ever before to a black individual who defied negative stereotypes While Obama s politics divided voters Americans uniformly perceived Obama as highly successful intelligent and charismatic What effect if any did the innumerable images of Obama and his family have on racial attitudes among whites In *The Obama Effect* Seth K Goldman and Diana C Mutz uncover persuasive evidence that white racial prejudice toward blacks significantly declined during the Obama campaign Their innovative research rigorously examines how racial attitudes form and whether they can be changed for the better *The Obama Effect* draws from a survey of 20 000 people whom the authors interviewed up to five times over the course of a year This panel survey sets the volume apart from most research on racial attitudes From the summer of 2008 through Obama s inauguration in 2009 there was a gradual but clear trend toward lower levels of white prejudice against blacks Goldman and Mutz argue that these changes occurred largely without people s conscious awareness Instead as Obama became increasingly prominent in the media he emerged as an exemplar that countered negative stereotypes in the minds of white Americans Unfortunately this change in attitudes did not last By 2010 racial prejudice among whites had largely returned to pre 2008 levels Mutz and Goldman argue that news coverage of Obama declined substantially after his election allowing other more negative images of African Americans to re emerge in the media *The Obama Effect* arrives at two key conclusions Racial attitudes can change even within relatively short periods of time and how African Americans are portrayed in the mass media affects how they change While Obama s election did not usher in a post racial America *The Obama Effect* provides hopeful evidence that racial attitudes can and for a time did improve during Obama s campaign Engaging and thorough this volume offers a new understanding of the relationship between the mass media and racial attitudes in America *Focus On: 100 Most Popular 20Th-century American Politicians* Wikipedia contributors, **The New Nuclear Danger** Helen Caldicott, 2017-07-18 A global leader of the antinuclear movement delivers a meticulous urgent and shocking report on US weapons policy and the imminent dangers it poses Booklist First published in the wake of the September 11 attacks in 2001 *The New Nuclear Danger* sounded the alarm against a neoconservative foreign policy dictated by weapons manufacturers This revised and updated edition includes a new introduction that outlines the costs of Operation Iraqi Freedom details the companies profiting from the war and subsequent reconstruction and chronicles the rampant conflicts of interest among

members of the Bush administration who also had a financial stake in weapons manufacturing Named one of the Most Influential Women of the 20th Century by the Smithsonian and nominated for the Nobel Peace Prize for her antinuclear activism Dr Helen Caldicott s expert assessment of US nuclear and military policy is essential reading for anyone who wants to understand the precarious state of the world After eight printings in the original edition The New Nuclear Danger remains a singularly persuasive argument for a new approach to foreign policy and a new path toward arms reduction A timely warning at a critical moment in world history of the horrible consequences of nuclear warfare Walter Cronkite

An Independent View of The Donald J Trump Presidency William Smith,2022-11-04 In the last four years I have been seeking answers as to why our country is so deeply divided Are we being fooled by those whom we rely on to deliver the truth about what is happening within America I believe that our government has failed us by allowing those with ulterior motives to influence our hearts and minds by commercially controlling our free enterprise system of democracy This book takes a chronological look at the inner workings of our government leading up and into Donald Trump s administration which has made him the most controversial president of my lifetime He has created a following that is every bit as fanatical about our government as he has been in the way he has shaped his administration to conform to his authority Here we have a president that was impeached twice has a long history of involvement in lawsuits plays by his own rules runs his business enterprises in an autocratic manner demands loyalty while firing those who fail to serve his needs yet can do no wrong in the eyes of his MAGA admirers Half of America loves him and half despises him Who really knows and understands Donald Trump Unfortunately we do not listen to another s position in life because we have already been conditioned to believe in what we have been told and what we have experienced ourselves We have been further hampered by the lack of information as much as by planted misinformation Finding the truth within Trump s presidency has been my obsession What I promised to do is find the cause and effect of our differences by presenting verifiably historical documentation so that readers can evaluate for themselves what is real and what is deliberate deception As an Independent voter I have called upon my conservative friends and acquaintances to present their point of view In order to Make America Great Again all we need to do is listen to each other then speak our concerns with understanding and compassion

Hoax Brian Stelter,2020-08-25 The instant New York Times bestseller that reveals the collusion between Fox News and Donald Trump with explosive new reporting covering the election and the January 6 riot As the nation recovers from the Trump presidency many questions remain Why was the COVID 19 pandemic so grossly mishandled How did we get so politically polarized What caused white nationalist groups to come out of the shadows and are they here to stay The answers lie the twisted story of the relationship between Donald Trump and Fox News Through firsthand accounts from over 250 current and former Fox insiders CNN anchor and chief media correspondent Brian Stelter unlocks the inner workings of Rupert Murdoch s multibillion dollar media empire The confessions are shocking We don t really believe all this stuff a producer says We just tell other people to believe it Stelter

completes the story of the Trump years and looks toward the future of the network that made him Hoax is a book for anyone who reads the news and wonders how we got here and what happens next **Thinking Outside the Box** Gary R. Edgerton, Brian Geoffrey Rose, 2005-01-01 Thinking Outside the Box brings together some of the best and most challenging scholarship about TV genres exploring their genesis their functions and development and the interaction of disparate genres The authors argue that genre is a process rather than a static category and that it signifies much about the people who produce and watch the shows In addition to considering traditional genres such as sitcoms soap operas and talk shows the contributors explore new hybrids including reality programs teen oriented science fiction and quality dramas and examine how many of these shows have taken on a global reach Identifying historical continuities and envisioning possible trends this is the richest and most current study of how television genres form operate and change **Image and Emotion in Voter**

Decisions Renita Coleman, Denis Wu, 2015-03-25 Drawing on a decade of their own research from the 2000 to 2012 U S presidential elections Renita Coleman and Denis Wu explore the image presentation of political candidates and its influence at both aggregate and individual levels When facing complex political decisions voters often rely on gut feelings and first impressions but then endeavor to come up with a rational reason to justify their actions Image and Emotion in Voter Decisions The Affect Agenda examines how and why voters make the decisions they do by examining the influence of the media s coverage of politicians images Topics include the role of visual and verbal cues in communicating affective information the influence of demographics on affective agenda setting whether positive or negative tone is more powerful and the role of emotion in second level agenda setting Image and Emotion in Voter Decisions will challenge readers to think critically about political information processing and a new way of systematically thinking about agenda setting in elections
