The Literary Monster on Film Abigail Burnham Bloom, 2014-01-10 Many monsters in Victorian British novels were intimately connected with the protagonists and representative of both the personal failings of a character and the failings of the society in which he or she lived By contrast more recent film adaptations of these novels depict the creatures as arbitrarily engaging in senseless violence and suggest a modern fear of the uncontrollable This work analyzes the dichotomy through examinations of Shelley's Frankenstein Stoker's Dracula H Rider Haggard's She Stevenson's Strange Case of Dr Jekyll and Mr Hyde and Wells's The Island of Dr Moreau and

consideration of the 20th century film adaptations of the works *Literature, the Gothic and the Reconstruction of History* Daniel Renshaw, Neil Cocks, 2025-01-31 In the Gothic nothing stays buried for long Since its inception in the mid eighteenth century the Gothic imagination has been concerned with the pasts of the societies from which it emerged This collection featuring contributions from archivists historians and literary critics examines how horror fiction and the wider Gothic mode have engaged with the constructed conception of history From Victorian nightmares of Jurassic jungles to ghost stories on the contemporary stage the contributors adopt varied and innovative approaches to consider how the Gothic has created complicated and sometimes subverted historical narratives In doing so these works blur the distinctions between the historical record and creative endeavour undermine linear and sequential understandings of the progress of time and dissolve temporal boundaries The collection explores a variety of Gothic forms including drama poetry prose illustration film and folklore and it draws on classic texts such as *Wuthering Heights* and *Dracula* as well as less familiar works including Reynolds *The Mysteries of London* and Baldini's *Mal aria* *Literature the Gothic and the Reconstruction of History* will be invaluable to students and scholars interested in the confluences of literary and historical endeavour the creation and depiction of historical constructs in popular culture and Gothic horror in its myriad forms *The Shelley-Byron Circle and the Idea of Europe* P. Stock, 2010-04-12 This book investigates how Lord Byron Percy Shelley and their circle understood the idea of Europe What geographical cultural and ideological concepts did they associate with the term What does this tell us about politics and identity in early nineteenth century Britain In addressing these questions Paul Stock challenges prevailing nationalist interpretations of Romanticism but without falling prey to imprecise alternative notions of cosmopolitanism or world citizenship Instead his book accounts for both the transnational and the local in Romantic writing reassessing the period in terms of more complex multi layered identity politics **Plagues, Apocalypses and Bug-Eyed Monsters** Heather Urbanski, 2015-01-24 Speculative fiction both science fiction and fantasy reflects among other things the fears of the culture that created it contributing perhaps unconsciously to our efforts to prevent our fears from coming true While the names and media change over time the themes of speculative fiction have a long history Nineteenth century works such as *Frankenstein* and *The Invisible Man* contain many of the same messages as the more modern tales of *Terminator* *Jurassic Park* and even *Buffy the Vampire Slayer* although almost a century separates their creation This critical study discusses the ways in which speculative fiction reflects societal fears and analyzes how such cautionary tales contribute to society's efforts to avoid the realization of these fears Beginning with a discussion of the nature of speculative fiction it takes a look at the characteristics of the cautionary tale The core of the book however is the concept of the Nightmares Model which examines and categorizes the repetition of specific themes within the genre The dangers of science and technology the perils of power and the threat of the unknown are discussed as recurrent themes within a variety of works in prose film and television Works analyzed range from *Twenty Thousand Leagues Under the Sea* to *2001 A Space Odyssey* to *The Blair Witch Project* Sources

include the author's own observations as a member of the genre's fandom a variety of published commentaries and the perspectives of contemporary professionals gained through personal interviews and panel discussions

We Are All Monsters Andrew Mangham, 2023-02-14 How the monsters of nineteenth century literature and science came to define us Was I then a monster a blot upon the earth from which all men fled and whom all men disowned In *We Are All Monsters* Andrew Mangham offers a fresh interpretation of this question uttered by Frankenstein's creature in Mary Shelley's 1818 novel in an expansive exploration of how nineteenth century literature and science recast the monster as vital to the workings of nature and key to unlocking the knowledge of all life forms and processes Even as gothic literature and freak shows exploited an abiding association between abnormal bodies and horror amazement or failure the development of monsters in the ideas and writings of this period showed the world to be dynamic varied plentiful transformative and creative In works ranging from Comte de Buffon's interrogations of humanity within natural history to Hugo de Vries's mutation theory and from Shelley's artificial man to fin de siècle notions of body difference Mangham expertly traces a persistent attempt to understand modern subjectivity through a range of biological and imaginary monsters In a world that hides monstrosity behind theoretical and cultural representations that reinscribe its otherness this enlightened book shows how innovative nineteenth century thinkers dismantled the fictive idea of normality and provided a means of thinking about life in ways that check the reflexive tendency to categorize and divide
