Cross, Robert N. Proctor, 2014-09-30 From the candy bar to the cigarette records to roller coasters a technological revolution during the last quarter of the nineteenth century precipitated a colossal shift in human consumption and sensual experience Food drink and many other consumer goods came to be mass produced bottled canned condensed and distilled unleashing new and intensified surges of pleasure delight thrill and addiction In *Packaged Pleasures* Gary S Cross and Robert N Proctor delve into an uncharted chapter of American history shedding new light on the origins of modern consumer culture and how technologies have transformed human sensory experience In the space of only a few decades junk foods cigarettes movies recorded sound and thrill rides brought about a revolution in what it means to taste smell see hear and touch New techniques of boxing labeling and tubing gave consumers virtually unlimited access to pleasures they could simply unwrap and enjoy Manufacturers generated a seemingly endless stream of sugar filled high fat foods that were delicious but detrimental to health

Mechanically rolled cigarettes entered the market and quickly addicted millions And many other packaged pleasures dulled or displaced natural and social delights Yet many of these same new technologies also offered convenient and effective medicines unprecedented opportunities to enjoy music and the visual arts and more hygienic varied and nutritious food and drink For better or for worse sensation became mechanized commercialized and to a large extent democratized by being made cheap and accessible Cross and Proctor have delivered an ingeniously constructed history of consumerism and consumer technology that will make us all rethink some of our favorite things

Better Packaging Better World Assunta Camilo, Simone Ruiz, Edenilson Santos, Margaret Hayasaki, Célia Freitas, Eric Fresnel, Guilherme Presa Arcuri, Roberto Castilho, Silvio Rotta, 2024-04-08 The bilingual collection Embalagem Melhor Mundo Melhor Better Packaging Better World which already has twelve books was

born from the idea of covering all areas of knowledge involved in the development of packaging from its conception to its arrival at the point of sale. It is also the result of the Instituto de Embalagens' belief: Better Packaging Better World, which is its raison d'être in the area of packaging teaching and research. More than 17 000 professionals have already been trained with the books in the collection. The third edition, revised and updated, brings together the entire packaging system from concepts to final disposal, including market design, trends, innovations, materials, processes, equipment, and the delicate issue of sustainability. Divided into six units, this book brings new chapters such as packaging for organic products, packaging for e-commerce, polyester films, structures for flexible packaging, types of flexible packaging, lids, seals, and accessories, steel closures, carton packaging, stretch and shrink films, coatings and barrier varnishes, paints, varnishes, and adhesives for flexible packaging, inks, varnishes, and adhesives for paper and paperboard packaging, color, pattern, control, testing for packaging, variable weight products, and labeling machines. The quality and availability of the authors, who are experienced professionals fully active in the industry, constitute a differential of the book, which approaches in a simple and accessible way the universe of the packaging industry for packaging converters and consumer products industries. A book such as this was only possible thanks to the expertise of the authors and the fact that they understood the high purpose of the mission: to educate and share knowledge for the development of better packaging for a better world. The new book will also have an e-book version in Portuguese and English. All the books in the collection are available on the same website platform, which is the collection's channel: www.betterpackagingbetterworld.com. With the commitment of disseminating knowledge and growth of the packaging sector, the Instituto de Embalagens is spreading its belief: Better Packaging Better World.

Packaging Design Bill Stewart, 2007-11-29. Packaging design became established as a specialist discipline in the 1960s, yet few books have been published that offer sound practical advice for students. Now Bill Stewart describes the whole design process from concept creation to production, including all important considerations of brand development and the designer's obligations and responsibilities to the environment. The methods described mirror the

design process widely adopted commercially ensuring a relatively painless transformation from student to design practitioner This introduction to the subject is illustrated by a wide range of packaging examples and also includes useful tips and ideas for the designer Concluding with a chapter on careers advice the book will be of interest to all students involved with packaging whether their specialism is structural or graphic design product design marketing or consumer behavioral studies
