The coronavirus (COVID-19) outbreak has impacted businesses across a variety of industries, forcing them to rethink their daily operations to ensure the safety of their employees and the general public. This is no different for hospitality operations, where multiple workers may come into contact with innumerable guests throughout the workday when checking them in, cleaning their rooms or providing other guest services. In these instances, just one misstep can lead to the quick spread of COVID-19, jeopardizing the well-being of workers.

To help slow the spread of COVID-19 and safeguard our staff, has created an action plan for responding to COVID-19. This plan, which is based on Centers for Disease Control and Prevention (CDC) and Occupational Safety and Health Administration (OSHA) guidance, highlights the responsibilities of managers and employees, and outlines the steps is taking to address COVID-19.

RESPONSIBILITIES

When it comes to ensuring a safe workplace during the COVID-19 outbreak, both managers and employees have their role to play. The following is a breakdown of the responsibilities for leadership and staff.

Managers and Supervisors

Leadership, including managers and supervisors, should familiarize themselves with the details of the action plan. Above all, leadership must be prepared to answer questions from employees and set a good example by adhering to the guidance prescribed in the plan. This involves practicing social distancing and good personal hygiene.

Employees

Employees play a critical role in 's COVID-19 prevention efforts. To protect everyone in the facility, has a number of general best practices employees should follow:

- **Understand the signs and symptoms of COVID-19, and stay home if you are feeling sick**—Any employee who is experiencing symptoms of COVID-19 (e.g., fever, cough, shortness of breath, sore throat, runny nose, body aches, chills or fatigue) should stay home. Individuals experiencing such symptoms should also be instructed to consult guidance from the CDC on seeking medical care.
- **Practice good hygiene**—Employees should clean their hands often, either with an alcohol-based hand sanitizer, or soap and water. Hand sanitizers should contain at least 60%-95% alcohol, and employees should wash their hands with soap for at least 20 seconds. In addition, employees should avoid touching their face and cough into their arm.
- **Practice social distancing**—Social distancing is the practice of deliberately increasing the physical space between people to avoid spreading illness.
