Lead-Bismuth-Cooled Fast Reactors Georgii I. Toshinskii,2023-05-03 Nuclear power NP can bring great benefits to humanity by generating energy without emitting carbon into the environment To solve the problem of global climate change the number of nuclear power plants NPPs in the world must be much larger than it currently is However due to accidents at NPPs people are in disbelief of NP which has led to the closure of NPPs in some countries and a slowdown in the development of NP across the world This tendency can be overcome by creating NPPs with reactors with a high level of inherent self protection in which the causes of the most severe accidents are excluded by the laws of nature These reactors include those with a lead bismuth eutectic in which there is no high pressure and no explosive hydrogen is formed This book brings together articles and reports from Russian specialists devoted to such reactors It will be of interest to both specialists working in nuclear power engineering and university students      Fast Facts ,2005      YSEC Yearbook of Socio-Economic Constitutions 2020 Steffen Hindelang,Andreas Moberg,2021-03-29 This book presents the very first interdisciplinarily grounded comprehensive appraisal of a future Common European Law on Investment Screening Thereby it provides a foundation for a European administrative law framework for investment screening by setting out viable solutions and evaluating their pros and cons Daimler the harbour terminal in Zeebrugge or Saxo Bank are only three recent examples of controversially discussed company takeovers in Europe The elephant in the room is China and its Belt and Road Initiative The political will in Europe is growing to more actively control investments flowing into the EU The current regulatory initiatives raise several fundamental constitutional and regulatory issues Surprisingly they have not been addressed in any depth so far The book takes stock of the current rather fragmented regulatory approaches and combines contributions from leading international academics practitioners and policy makers in their respective fields Due to the volume s comprehensive

approach it is expected to influence the broader debate on the EU's upcoming regulation of this matter. The book is addressed to participants from academia as well as to representatives from government, business and civil society. THE REPUBLIC v HIGH COURT, FAST TRACK, **Space Law** Francis Lyall, Paul B. Larsen, 2016-04-01. The opening of space to exploration and use has had profound effects on society. Remote sensing by satellite has improved meteorology, land use and the monitoring of the environment. Satellite television immediately informs us visually of events in formerly remote locations as well as providing many entertainment channels. World telecommunication facilities have been revolutionised. Global positioning has improved transport. This book examines the varied elements of public law that lie behind and regulate the use of space. It also makes suggestions for the development and improvement of the law, particularly as private enterprise plays an increasing role in space. *Fast And Furious: A Comprehensive Collection Of U.S. Government Documents To 2017*, 2018-12-11. Over 26 000 total pages. Background: The Fast and Furious operation was responsible for allowing approximately 2 000 firearms to illegally flow into the hands of criminals, including Mexican drug cartel associates. On December 14 2010 Customs and Border Patrol Agent Brian Terry, a United States Marine, was killed while on patrol just miles from the Mexican border. The firearms found at the scene were semi-automatic rifles that were allowed to walk as part of Operation Fast and Furious. Congressional Republicans have investigated Fast and Furious since January 2011. Over the course of the investigation, the Justice Department has provided false information, stonewalled document requests, produced scores of blacked-out pages and duplicate documents, and refused to comply with two congressional subpoenas. In August 2012 the U.S. House of Representatives Office of General Counsel filed suit against the Justice Department. On January 19 2016 United States District Judge Amy Berman Jackson issued her opinion and ordered DOJ release documents previously withheld under the President's executive privilege claim. On April 8 2016 DOJ complied with the Judge's order, delivering more than 20 500 pages of documents to the Committee. CONTENTS: Statement of Michael E.
